INCOME TAX, 1909.

PUBLIC NOTICE TO MAKE RETURNS.

IN pursuance of "The Income Tax Act, 1909," which imposes an Income Tax upon incomes exceeding £50, arisen or accrued during the year ended 30th June, 1909, and in respect of the occupation of houses during the said year which together with land occupied therewith were of the value of £75, notice is hereby given that the following persons residing in the Division or District of Fort Beaufort, are required to furnish at this Office within thirty days of the date hereof, returns for the purpose of the assessment of Income Tax of incomes arisen or accrued to them either personally or in any representative capacity during the year ended 30th June, 1909 :—

- (1) Every Public Officer of a Company ;
- (2) Every person whose taxable income during the year ended 30th June, 1909, exceeded £300 ;
- (3) Every other person liable to tax who has not already been assessed for Income Tax in respect of income arisen or accrued or occupation during the said year.

No female whose income during the said year did not exceed £300 is liable to tax, but the income of a woman married with or without community of property, and living with, or not legally separated from her husband, is deemed to be income accrued to her husband, and such income must be included in his return.

Any person who may not receive a form applicable to his particular case may obtain such form on application to me.

No person is exempted from the penalties in the next succeeding Sections mentioned by reason merely of the fact that

- (1) Such person may prove not to be liable to taxation, or
- (2) That such person may not have been called upon individually to render a Return.

Any person or company making a false return is liable under the said Acts to a penalty of £100, and to be assessed double the amount of Tax to which he otherwise would be charged ; and any person whether liable or not liable to tax failing to furnish the prescribed Return within the prescribed time, or to furnish any further or fuller Return required from him, is liable for each offence to a penalty of a fine not exceeding £10, or, in default of payment, three months imprisonment with or without hard labour.

Office of the Commissioner of Public Works.
Cape Town, 4th March, 1910.

THE following Regulations under Sections 38, 1, 3, 5, 7 and 14 of The Railway Superannuation Fund Act, No. 41 of 1909, are published for general information.

J. W. SAUER.
Commissioner.

RAILWAY SUPERANNUATION FUND
REGULATIONS.

1. The Railway Superannuation Fund shall be administered by a Committee of Management consisting of seven members. Three members shall be elected by the staff, and a Chairman and three members shall be nominated by the Commissioner.
2. The members shall be represented on the Committee by three members, but no one branch of the service may have more than one representative.
3. The Chairman and nominated members shall hold office during the pleasure of the Commissioner. Letters of appointment or cancellation of appointment shall be signed by the General Manager. The Commissioner shall have full authority to nominate alternates to take the place of the Chairman or nominated members absent on leave, or otherwise unable to act, and such alternates shall, whilst acting, have all the powers and authority of the members in whose places they are acting.
4. No railway servant may be an elected member of the Committee unless he or she is a contributor to the fund.
5. Elected members of the Committee shall hold office for two calendar years. The election shall be conducted in the following manner, namely:—The names of the contributors proposed for election as committeemen, together with their consent, in writing, supported by the signatures of at least six other contributors, shall be sent to the Secretary, and the Secretary shall circulate to members a printed form of voting paper containing the names of the persons so proposed, together with the names of the proposers of each candidate. Contributors may vote for the candidate they wish to elect by placing a cross against his name, and shall sign their names on the voting paper and return it in an envelope to the Secretary on or before the date prescribed. Voting papers not returned to the Secretary by the prescribed date will be disqualified. The Secretary shall, in the presence of scrutineers appointed by the Committee, count the votes given for each of the several candidates, and make out a list thereof. Such list shall be signed by the scrutineers and the Secretary. The persons who have received the largest number of votes shall (subject to the provisions of Regulation 2 hereof) be elected as members of the Committee. Their election shall be notified to the General Manager by the Secretary, and the General Manager shall, in writing, notify the persons so elected. In the event of any candidates having an equal number of votes, there shall be a fresh election, but only as between the candidates having such equality.
6. Any elected member of the Committee may at any time resign his office by giving notice in writing to the Secretary.

7. In the event of an elected member resigning or omitting to attend a meeting of the Committee without reasonable cause, the remaining elected members shall have the option of nominating another contributor to act in his place, or they may request the Secretary, in writing, to arrange for the election of a member to act in place of the resigned or absent member for the remainder of the term, and the Secretary shall on receipt of such request arrange for the election in the manner laid down in section 5 of these Regulations. Vacancies on the Committee, provided the necessary quorum is present, shall in no case invalidate any action which the remaining members of the Committee may take.

8. During the intervals between the meetings of the Committee the affairs of the fund shall be administered by an Executive Committee, consisting of the Chairman and two members of the Committee, one of whom shall be a nominated member and one an elected member. Alternates shall also be elected by the Committee from amongst its members to act in the absence of any member of the Executive Committee. The Executive Committee shall hold office during the period for which the elected members of the Committee electing them hold office.

9. The quorum for each Committee shall be as follows:—

Committee: Five.
Executive Committee: Three.
Sub-Committees: A majority of the members.

10. The Chairman of the Committee shall be *ex officio* a member of all Sub-Committees appointed by the Committee.

11. The decision of the majority of the members present at any meeting of the Committee, Executive or Sub-Committee, shall be deemed to be the decision of such Committee on any matter.

In deciding any question of fact, the Committee may, save as is otherwise provided in these regulations, act upon such evidence as they shall deem adequate, whether amounting to legal proof or not. Apart from his vote as a member the Chairman shall in cases of equal division have an additional or casting vote. On request by a member, voting on any subject at Committee meetings shall be by ballot, otherwise the voting shall be by show of hands.

12. The Committee of Management shall meet at intervals not exceeding six months.

13. No matter shall be brought up for discussion at any meeting of the Committee unless previously placed on the agenda paper circulated to the members, and no matter shall be placed on the agenda paper, other than applications for admission to the Fund, unless notice thereof shall have reached the Secretary at least three days prior to the date fixed for the meeting.

14. The Secretary shall, on a requisition signed by not less than three members of the Committee, call a special meeting of the Committee for the purpose of discussing and transacting the business detailed in such requisition. Members of the Committee shall have at least one clear day's notice of the special meeting. No business shall be brought forward at a special meeting other than that for which it is called, if all the members of the Committee are not present, or if one of those present objects.

15. The Executive Committee shall meet as often as the Chairman may decide.

16. The Secretary shall be appointed by the Administration on the recommendation of the Committee, and shall hold office at the pleasure of the Commissioner.

Members of the daily-paid staff will, in addition, be allowed a day's pay at their ordinary rates for each day's absence from headquarters. The Administration will grant free passes to members of Committees when travelling to and from meetings.

21. The Committee, or the Executive Committee on its behalf, shall, subject to the control of the Commissioner, have the power to examine and approve all applications for membership; to decide all claims made upon the fund; to authorise the payment of pensions and other benefits; and to carry out and perform the several duties herein-after more specifically provided.

22. All disputes regarding claims against the fund or the interpretation of these regulations shall be adjudicated upon by the Executive Committee, subject to confirmation by the General Committee.

23. Applications by railway servants for membership of the fund shall be made on the form prescribed in Annexure A. Applications by those over 50 years of age shall be made on the ordinary form, leaving it to the Committee to take any further steps that may be necessary.

Thereafter the Chief Accountant shall transmit the form of application, statement of arrears, and any supporting documents to the Secretary of the Committee, who shall submit the same to the Executive Committee for approval.

Approval of the application shall be notified to the Chief Accountant by the Secretary, and the Chief Accountant shall inform the applicant that his application for membership has been accepted and the terms, if any, on which such application has been granted.

The Chief Accountant shall also notify to the applicant the deductions which will be made from the applicant's pay-sheets and the date or dates from which such deductions will operate.

Should the application for membership not be entertained the Secretary shall notify the applicant and Chief Accountant accordingly.

25. Every male and female railway servant employed by the Administration on the 1st January, 1910, shall be deemed to have been in permanent employment, except

- (a) Those who have not attained the age of seventeen years;

- (c) Those engaged for a fixed period or for construction work;
- (d) Casual employees.

26. Throughout these regulations terms descriptive of the Railway staff, such as servants, officers, employees, labourers, etc., shall be interpreted to include females as well as males, unless inconsistent with these regulations or with the Act.

- (2) Life policy, giving date of birth, and marked "Age admitted."

Where contributors are not able to produce the evidence as set out above, the Committee may accept the following in lieu thereof:—

- (3) Copy of baptismal certificate, giving date of birth, duly authenticated.

34. For purposes of ascertaining a member's contributions, the value of rations shall be determined by the Committee after obtaining a recommendation from the head of the department in which the contributor is employed. On giving three months' notice to the contributor the Committee may from time to time increase or decrease the assessment of the value of such rations.

5. MINISTERIAL DIVISION OF COMMISSIONER OF PUBLIC WORKS.

35. In calculating the arrears due in respect of service with the Administration the Chief Accountant shall adopt the following basis :—

(1) SALARIED STAFF.

For period ended 31st December, 1909. Actual salary at the rates shown in the staff books.

(2) MONTHLY AND DAILY PAID STAFF.

For the period ended 31st December, 1909, the average rate of pay for the year according to the records in the records or pay-sheets of such Administrations or certified copies of records of service furnished by such Administrations. Where such records are not available such other evidence of the emoluments drawn as the Committee approve may be accepted. In calculating arrears regard shall be had only to emoluments of a nature corresponding to those described in the Act as pensionable emoluments. In cases of doubt as to whether any allowance or other payment shall be regarded as a pensionable emolument the decision of the Committee shall be final.

N.B.—Sunday work is invariably to be regarded as overtime, and therefore excluded by the Act.

36. In calculating arrears due in respect of services with other Administrations the Chief Accountant shall wherever possible take pensionable emoluments as shown in the records or pay-sheets of such Administrations or certified copies of records of service furnished by such Administrations. Where such records are not available such other evidence of the emoluments drawn as the Committee approve may be accepted. In calculating arrears regard shall be had only to emoluments of a nature corresponding to those described in the Act as pensionable emoluments. In cases of doubt as to whether any allowance or other payment shall be regarded as a pensionable emolument the decision of the Committee shall be final.

37. Contributions towards additional pensions shall not be made in the following cases :—

- (a) Where the railway servant entered the service prior to his thirtieth birthday.
- (b) In respect of service other than service with the Administration.

38. Without necessarily admitting such periods as periods of pensionable employment the Committee are empowered to disregard breaks in service which would otherwise invalidate applications to ante-date membership of the fund where it is established to their satisfaction that such breaks in service were due directly or indirectly to the military operations conducted in South Africa between 11th October, 1899, and 30th June, 1902. The Committee may further disregard breaks of service not exceeding one year at any one time where due to retrenchment or ill-health or to inability to obtain leave. No such application shall, however, be entertained in cases where the applicant was dismissed, or voluntarily resigned railway service to follow other employment.

Military service during the war period, and other breaks of service so disregarded, will be treated as leave of absence without pay.

Breaks in service not due directly or indirectly to military operations in South Africa as set out above will as far as possible be dealt with in the following manner :—

(1) *Resignation* :

- (a) *Voluntary*.—Contributions to be allowed from date of rejoining the service.
- (b) *Owing to Ill Health*.—Break not exceeding one year may be treated as leave without pay, provided the applicant can produce proof to the satisfaction of the Committee that he was obliged to resign owing to ill-health.
- (c) *Owing to inability under existing Regulations to obtain leave without pay*.—Break not exceeding one year to be treated as leave without pay, provided the applicant can produce proof that he was obliged to resign.

(2) *Suspension owing to misconduct followed by reinstatement*.—Service to be regarded as continuous.

(3) *Retrenchment*.—If the re-appointment, whether in the same or another branch of the service, took place within one year of the date of retrenchment the period covered by the break to be treated as leave of absence without pay.

(4) *Dismissal or Enforced Resignation*.—Applicant to be admitted from date of rejoining only.

39. Contributions shall be collected by means of deductions on the pay-sheets as the salaries or wages are paid. Arrear contributions shall also be collected in this way at a rate of not less than 3 per cent. of current pensionable emoluments. In addition to any amounts so deducted

from the pay-sheets members are at liberty to make remittances direct to the Chief Accountant in reduction of arrear contributions.

No arrear contributions to the Fund may be accepted from :—

- (a) A person who has left the service or has been paid off;
- (b) The legal or other representative of a deceased contributor,

or from any person on behalf of such individuals.

Applicants 50 years of age and over who apply for permission to contribute in respect of such a period of arrear service at such a rate as renders it impossible for them to discharge before reaching pensionable age sufficient arrear contributions to entitle them to a pension will only be admitted on condition that they make such arrangements for paying arrears as will entitle them to an annuity on reaching the prescribed age for superannuation.

40. When under the Act the liability for £ for £ contributions in respect of principal or interest falls on the contributor, it shall be understood that such £ for £ contributions are made by the member in lieu of and not in addition to £ for £ contributions by Revenue.

41. When under the Act the refund of a member's contributions is authorised such refund shall not include any amount which has been collected from the member in respect of interest unless such refund of interest is specifically provided for in the Act.

42. Applications for pensions or other benefits shall be on forms to be prescribed by the Committee, and shall be transmitted to the Committee by the General Manager.

43. The Chief Accountant shall compute the amount of any pension or other money benefits payable by the fund. The computation shall be certified as correct by the person auditing the railway accounts, and submitted for the approval of the Committee, and no pension shall be paid or be payable until the approval of the Committee has been obtained. Urgent cases of refund of contributions may be dealt with on the authority of the Executive Committee.

44. Payment of any pension so authorised shall be effected by the Chief Accountant. Pensions shall be paid monthly not later than the 6th day of the month succeeding that in respect of which the pension is due. Except in cases where a pensioner attends in person before the officer authorised to pay his pension and adduces satisfactory evidence of his identity, no payment of any pension shall be made until the pensioner has furnished to the Chief Accountant or other authorised officer a certificate under the hand of a Justice of the Peace, bank manager, or station master that he was alive on the last day of the month in respect of which the pension is claimed.

45. Claims for death benefits shall be payable within twenty-one days after production of satisfactory evidence of their validity and of the title of the claimant to such benefits.

46. Should a member die before his acceptance of the statement of arrears referred to in clause 24 of these Regulations has been obtained, such acceptance shall be assumed in so far as the deceased shall have made payment on account of such arrears, and any arrears actually paid or payable up to the date of death under the instructions of the member shall be taken into account for the purpose of arriving at the benefits payable from the Fund.

47. When a railway servant applies for an invalid pension he must submit the certificate of a Railway Medical Officer, which will be referred to the Medical Board hereinafter defined for a confidential opinion on the case, and the Medical Board shall be empowered to examine the railway servant itself, or to cause him to be examined by any medical practitioner nominated for the purpose.

48. A Medical Board, consisting of the railway servant's medical officer, and one medical officer selected by the General Manager, shall be appointed to report upon any cases in which a medical certificate is required in connection with the administration of the fund. 51. Separate accounts shall be kept for each division of the fund, viz. :—

Division I., for officers.

Division II., for employees.

52. For each division there shall be prepared as on 30th June in each year a statement showing the number of contributing and superannuated members and members who have joined, left, or been superannuated or died during the year.

53. There shall also be prepared as at the same date for each division of the fund a statement of receipts and disbursements and a balance-sheet in the form given in Annexure B.

54. The accounts of the fund shall be signed by the Chief Accountant, and shall thereafter be audited by the person auditing the railway accounts in terms of section forty-four of the Act.

55. The annual statement of membership and the audited statements of account referred to above shall be submitted to the Committee, and the Secretary shall circulate copies to each member of the fund.

56. In addition to the annual accounts, the Chief Accountant shall furnish to the Committee such statements relating to the fund as the Committee may from time to time require.

57. For the purpose of calculating benefits or interest in connection with any matters relating to the fund, a month shall be taken as one twelfth part of a year in all cases where nothing to the contrary is laid down in the Act or any regulation approved by the Committee.

58. The books of the fund and all other records and papers belonging to the fund shall at all reasonable times be open for the inspection of any member of the Committee.

59. The fund shall be valued at 30th June, 1915, and every five years thereafter by an actuary appointed by the Commissioner. The actuary shall report direct to the Commissioner, and shall in his report state the data and process used in his investigation and valuation. He shall separately value the assets and liabilities of the two divisions of the fund, shall declare what surplus or deficiency appears on each division severally, shall state how such surplus or deficiency appears to have arisen, and shall advise how the same should be dealt with.

60. The fund shall be vested in and held in trust for members by the Commissioner, who shall have power of investing and reinvesting balances in the securities prescribed by law. The Committee may make recommendations on the subject to the Commissioner.

61. All regulations affecting the fund shall be notified to the staff by circular, but every regulation shall be deemed to be of force and effect when it has been published in the *Government Gazette*.

PUBLIC NOTICE TO MAKE RETURNS.

IN pursuance of "The Income Tax Act, 1909," which imposes an Income Tax upon incomes exceeding £50, arisen or accrued during the year ended 30th June, 1909,

and in respect of the occupation of houses during the said year which together with land occupied therewith were of the value of £75, notice is hereby given that the following persons residing in the Division or District of Bredasdorp, are required to furnish at this Office within thirty days of the date hereof, returns for the purpose of the assessment of Income Tax of incomes arisen or accrued to them either personally or in any representative capacity during the year ended 30th June, 1909:—

- (2) Every person whose taxable income during the year ended 30th June, 1909, exceeded £300;
- (3) Every other person liable to tax who has not already been assessed for Income Tax in respect of income arisen or accrued or occupation during the said year.

No female whose income during the said year did not exceed £300 is liable to tax, but the income of a woman married with or without community of property, and living with, or not legally separated from her husband, is deemed to be income accrued to her husband, and such income must be included in his return.

Any person who may not receive a form applicable to his particular case may obtain such form on application to me.

No person is exempted from the penalties in the next succeeding Sections mentioned by reason merely of the fact that

- (1) Such person may prove not to be liable to taxation, or
- (2) That such person may not have been called upon individually to render a Return.

Any person or company making a false return is liable under the said Acts to a penalty of £100, and to be assessed double the amount of Tax to which he otherwise would be charged; and any person whether liable or not liable to tax failing to furnish the prescribed Return within the prescribed time, or to furnish any further or fuller Return required from him, is liable for each offence to a penalty of a fine not exceeding £10, or, in default of payment, three months imprisonment with or without hard labour.

J. W. SAUER,

Commissioner.

RAILWAY SUPERANNUATION FUND
REGULATIONS.

1. The Railway Superannuation Fund shall be administered by a Committee of Management consisting of seven members. Three members shall be elected by the staff, and a Chairman and three members shall be nominated by the Commissioner.

2. The members shall be represented on the Committee by three members, but no one branch of the service may have more than one representative.

3. The Chairman and nominated members shall hold office during the pleasure of the Commissioner. Letters of appointment or cancellation of appointment shall be signed by the General Manager. 4. No railway servant may be an elected member of the Committee unless he or she is a contributor to the fund.

5. Elected members of the Committee shall hold office for two calendar years. The election shall be conducted in the following manner, namely:—The names of the contributors proposed for election as committeemen, together with their consent, in writing, supported by the signatures of at least six other contributors, shall be sent to the Secretary, and the Secretary shall circulate to members a printed form of voting paper containing the names of the persons so proposed, together with the names of the proposers of each candidate. Contributors may vote for the candidate they wish to elect by placing a cross against his name, and shall sign their names on the voting paper and return it in an envelope to the Secretary on or before the date prescribed. Voting papers not returned to the Secretary by the prescribed date will be disqualified. The Secretary shall, in the presence of scrutineers appointed by the Committee, count the votes given for each of the several candidates, and make out a list thereof. Such list shall be signed by the scrutineers and the Secretary. The persons who have received the largest number of votes shall (subject to the provisions of Regulation 2 hereof) be elected as members of the Committee. Their election shall be notified to the General Manager by the Secretary, and the General Manager shall, in writing, notify the persons so elected. Vacancies on the Committee, provided the necessary quorum is present, shall in no case invalidate any action which the remaining members of the Committee may take.

8. During the intervals between the meetings of the Committee the affairs of the fund shall be administered by an Executive Committee, consisting of the Chairman and two members of the Committee, one of whom shall be a nominated member and one an elected member. Alternates shall also be elected by the Committee from amongst its members to act in the absence of any member of the Executive Committee. Apart from his vote as a member the Chairman shall in cases of equal division have an additional or casting vote. On request by a member, voting on any subject at Committee meetings shall be by ballot, otherwise the voting shall be by show of hands.

12. The Committee of Management shall meet at intervals not exceeding six months.

13. No matter shall be brought up for discussion at any meeting of the Committee unless previously placed on the agenda paper circulated to the members, and no matter shall be placed on the agenda paper, other than applications for admission to the Fund, unless notice thereof shall have reached the Secretary at least three days prior to the date fixed for the meeting.

17. The Secretary shall keep the books and papers relating to the fund and business thereof, other than the accounts and records which are prescribed by law to be kept by the Chief Accountant of the Administration; receive and submit to the Executive Committee all applications for allowances out of the fund, resignations and other matters to be brought under the consideration of the Committee; summon all Committee meetings, record the minutes of the proceedings of all meetings of the Committee and Executive Committee; circulate copies of all minutes to every member of the Committee and to the General Manager; distribute balance-sheets annually to members; and perform such other duties with reference to the fund as the Committee or Executive Committee shall from time to time appoint.

18. A temporary substitute for the Secretary, when for any reason he is unable to act, may at any time be appointed by the General Manager.

19. The remuneration for all services performed by the Secretary and others in connection with the fund shall be fixed by the Commissioner.

20. The travelling expenses of members and Secretary attending meetings shall be at tariff rates subject to a minimum rate of 15s. per day and a minimum payment of 10s., and shall be borne by the Administration. Members of the daily-paid staff will, in addition, be allowed a day's pay at their ordinary rates for each day's absence from headquarters. The Administration will grant free passes to members of Committees when travelling to and from meetings.

21. The Committee, or the Executive Committee on its behalf, shall, subject to the control of the Commissioner, have the power to examine and approve all applications for membership; to decide all claims made upon the fund; to authorise the payment of pensions and other benefits; and to carry out and perform the several duties herein-after more specifically provided.

22. All disputes regarding claims against the fund or the interpretation of these regulations shall be adjudicated upon by the Executive Committee, subject to confirmation by the General Commissioner.

23. Applications by railway servants for membership of the fund shall be made on the form prescribed in Appendix A. Applications by those over 50 years of age shall be made on the ordinary form, leaving it to the Committee to take any further steps that may be necessary.

The Chief Accountant shall thereupon furnish the applicant with a statement of such arrears and obtain his agreement thereto, with such amendment, if any, as may be necessary.

Thereafter the Chief Accountant shall transmit the form of application, statement of arrears, and any supporting documents to the Secretary of the Committee, who shall submit the same to the Executive Committee for approval.

Approval of the application shall be notified to the Chief Accountant by the Secretary, and the Chief Accountant shall inform the applicant that his application for membership has been accepted and the terms, if any, on which such application has been granted.

The Chief Accountant shall also notify to the applicant the deductions which will be made from the applicant's pay-sheets and the date or dates from which such deductions will operate.

Should the application for membership not be entertained the Secretary shall notify the applicant and Chief Accountant accordingly.

25. Every male and female railway servant employed by the Administration on the 1st January, 1910, shall be deemed to have been in permanent employment, except

- (a) Those who have not attained the age of seventeen years;
- (b) Unskilled labourers, which term shall include daily-paid employees (other than clerical staff) whose rate of pay (calculated as pensionable emoluments under the Act) immediately prior to the coming into effect of the Act was less than 3s. 6d. per day;
- (c) Those engaged for a fixed period or for construction work;
- (d) Casual employees.

26. Throughout these regulations terms descriptive of the Railway staff, such as servants, officers, employees, labourers, etc., shall be interpreted to include females as well as males, unless inconsistent with these regulations or with the Act.

27. Servants of the sick fund of the Cape Government Railways, and medical officers whose whole time is devoted to the services of the Administration, shall be admitted to membership of the fund.

28. Any male or female railway servant entering the employment of the Administration after the 1st January, 1910, who

- (a) Has not attained the age of eighteen years;
- (b) Has not passed a medical examination of fitness;
- (c) Is employed as an unskilled labourer, which shall include all daily-paid employees not on the clerical staff whose pensionable emoluments are less than 3s. 6d. per day;
- (d) Has not served the prescribed period of probation (if any);
- (e) Is engaged for a fixed period or for construction work;
- (f) Has not received a letter of appointment to permanent employment;

shall be regarded as a temporary railway servant.

29. A railway servant appointed to permanent employment on or after the 1st January, 1910, whose age at the date of such permanent appointment was 40 years or over and less than 50 years, may elect to become a member of the fund within three months of such appointment.

30. Until the promulgation of special rules and scales of contributions and pensions which it may be found necessary to make, the regulations and scales of contributions and pensions in force in respect of male railway servants shall be applicable to female railway servants.

31. Satisfactory evidence of age must be produced within six months from the date of commencing contributions to the fund.

Satisfactory evidence of age shall be deemed to be:

- (1) Copy of birth certificate, duly authenticated;
- (2) Life policy, giving date of birth, and marked "Age admitted."

Where contributors are not able to produce the evidence as set out above, the Committee may accept the following in lieu thereof:—

- (3) Copy of baptismal certificate, giving date of birth, duly authenticated.

(4) Staff records of the Administration in the case of railway servants in employment on 1st January, 1910.

(5) Such other evidence as the Committee may consider sufficient for the purpose.

Any married railway servant contributing to the fund either from or before the 1st January, 1910, must forward his marriage certificate to the Secretary not later than the 30th June, 1910.

Any railway servant who may marry after becoming a contributor must produce his marriage certificate not later than three months after the date of marriage.

32. The pensionable emoluments on which contributions to the fund shall be paid shall be as follows:—

- (a) *Salaried Staff*: Substantive salary.
- (b) *Daily-paid Staff*: Substantive wages. N.B.—In the case of staff employed on piece-work the pensionable emoluments shall be calculated on the basis of the daily rate of pay multiplied by the number of working days in the month.
- (c) *All Salaried and daily-paid Staff*: The value of free quarters. Any allowance in lieu of free quarters. The assessed value of rations.

For the purpose of calculating current contributions time worked on Sundays (with the exception of time worked by Drivers, Firemen and Guards employed on the Trip system) shall be regarded as overtime.

33. The value of free quarters shall be assessed at one-sixth of the remaining pensionable emoluments.

34. For purposes of ascertaining a member's contributions, the value of rations shall be determined by the Committee after obtaining a recommendation from the head of the department in which the contributor is employed. On giving three months' notice to the contributor the Committee may from time to time increase or decrease the assessment of the value of such rations.

35. In calculating the arrears due in respect of service with the Administration the Chief Accountant shall adopt the following basis:—

(1) SALARIED STAFF.

For period ended 31st December, 1909. Actual salary at the rates shown in the staff books.

(2) MONTHLY AND DAILY PAID STAFF.

For the period ended 31st December, 1909, the average rate of pay for the year according to the records at the rate of 12 months for monthly staff and 313 days for daily paid staff. Proportionate deductions to be made for any time absent on leave without pay.

N.B.—Sunday work is invariably to be regarded as overtime, and therefore excluded by the Act.

36. In calculating arrears due in respect of services with other Administrations the Chief Accountant shall wherever possible take pensionable emoluments as shown in the records or pay-sheets of such Administrations or certified copies of records of service furnished by such Administrations. Where such records are not available such other evidence of the emoluments drawn as the Committee approve may be accepted. In calculating arrears regard shall be had only to emoluments of a nature corresponding to those described in the Act as pensionable emoluments. In cases of doubt as to whether any allowance or other payment shall be regarded as a pensionable emolument the decision of the Committee shall be final.

37. Contributions towards additional pensions shall not be made in the following cases:—

- (a) Where the railway servant entered the service prior to his thirtieth birthday.
- (b) In respect of service other than service with the Administration.

38. Without necessarily admitting such periods as periods of pensionable employment the Committee are empowered to disregard breaks in service which would otherwise invalidate applications to ante-date membership of the fund where it is established to their satisfaction that such breaks in service were due directly or indirectly to the military operations conducted in South Africa between 11th October, 1899, and 30th June, 1902. The Committee may further disregard breaks of service not exceeding one year at any one time where due to retrenchment or ill-health or to inability to obtain leave. No such application shall, however, be entertained in cases where the applicant was dismissed, or voluntarily resigned railway service to follow other employment.

Military service during the war period, and other breaks of service so disregarded, will be treated as leave of absence without pay.

23. Applications by railway servants for membership of the fund shall be made on the form prescribed in Annexure A. Applications by those over 50 years of age shall be made on the ordinary form, leaving it to the Committee to take any further steps that may be necessary.

5. MINISTERIAL DIVISION OF COMMISSIONER OF PUBLIC WORKS.

24. The applicant shall complete, sign, and forward the form, supported by a copy of his record certified by the head of his department, to the Chief Accountant, who will in cases where arrear contributions are due calculate the amount of such arrears and any interest due from the contributor or the Government in respect of such arrears. The Chief Accountant shall thereupon furnish the applicant with a statement of such arrears and obtain his agreement thereto, with such amendment, if any, as may be necessary.

Thereafter the Chief Accountant shall transmit the form of application, statement of arrears, and any supporting documents to the Secretary of the Committee, who shall submit the same to the Executive Committee for approval.

Approval of the application shall be notified to the Chief Accountant by the Secretary, and the Chief Accountant shall inform the applicant that his application for membership has been accepted and the terms, if any, on which such application has been granted.

The Chief Accountant shall also notify to the applicant the deductions which will be made from the applicant's pay-sheets and the date or dates from which such deductions will operate.

Should the application for membership not be entertained the Secretary shall notify the applicant and Chief Accountant accordingly.

25. Every male and female railway servant employed by the Administration on the 1st January, 1910, shall be deemed to have been in permanent employment, except—

- (a) Those who have not attained the age of seventeen years;
- (b) Unskilled labourers, which term shall include daily-paid employees (other than clerical staff) whose rate of pay (calculated as pensionable emoluments under the Act) immediately prior to the coming into effect of the Act was less than 3s. 6d. per day;
- (c) Those engaged for a fixed period or for construction work;
- (d) Casual employees.

26. Throughout these regulations terms descriptive of the Railway staff, such as servants, officers, employees, labourers, etc., shall be interpreted to include females as well as males, unless inconsistent with these regulations or with the Act.

27. Servants of the sick fund of the Cape Government Railways, and medical officers whose whole time is devoted to the services of the Administration, shall be admitted to membership of the fund.

28. Any male or female railway servant entering the employment of the Administration after the 1st January, 1910, who

- (a) Has not attained the age of eighteen years;
- (b) Has not passed a medical examination of fitness;
- (c) Is employed as an unskilled labourer, which shall include all daily-paid employees not on the clerical staff whose pensionable emoluments are less than 3s. 6d. per day;
- (d) Has not served the prescribed period of probation (if any);
- (e) Is engaged for a fixed period or for construction work;
- (f) Has not received a letter of appointment to permanent employment;

shall be regarded as a temporary railway servant.

29. A railway servant appointed to permanent employment on or after the 1st January, 1910, whose age at the date of such permanent appointment was 40 years or over and less than 50 years, may elect to become a member of the fund within three months of such appointment.

30. Until the promulgation of special rules and scales of contributions and pensions which it may be found necessary to make, the regulations and scales of contributions and pensions in force in respect of male railway servants shall be applicable to female railway servants.

31. Satisfactory evidence of age must be produced within six months from the date of commencing contributions to the fund.

Satisfactory evidence of age shall be deemed to be:

- (1) Copy of birth certificate, duly authenticated;
- (2) Life policy, giving date of birth, and marked "Age admitted."

Where contributors are not able to produce the evidence as set out above, the Committee may accept the following in lieu thereof:—

- (3) Copy of baptismal certificate, giving date of birth, duly authenticated.

(4) Staff records of the Administration in the case of railway servants in employment on 1st January, 1910.

(5) Such other evidence as the Committee may consider sufficient for the purpose.

Any married railway servant contributing to the fund either from or before the 1st January, 1910, must forward his marriage certificate to the Secretary not later than the 30th June, 1910.

Any railway servant who may marry after becoming a contributor must produce his marriage certificate not later than three months after the date of marriage.

32. The pensionable emoluments on which contributions to the fund shall be paid shall be as follows:—

(a) *Salaried Staff*: Substantive salary.

(b) *Daily-paid Staff*: Substantive wages. N.B.—In the case of staff employed on piece-work the pensionable emoluments shall be calculated on the basis of the daily rate of pay multiplied by the number of working days in the month.

(c) *All Salaried and daily-paid Staff*: The value of free quarters. Any allowance in lieu of free quarters. The assessed value of rations.

For the purpose of calculating current contributions time worked on Sundays (with the exception of time worked by Drivers, Firemen and Guards employed on the Trip system) shall be regarded as overtime.

33. The value of free quarters shall be assessed at one-sixth of the remaining pensionable emoluments.

34. For purposes of ascertaining a member's contributions, the value of rations shall be determined by the Committee after obtaining a recommendation from the head of the department in which the contributor is employed. On giving three months' notice to the contributor the Committee may from time to time increase or decrease the assessment of the value of such rations.

35. In calculating the arrears due in respect of service with the Administration the Chief Accountant shall adopt the following basis:—

(1) SALARIED STAFF.

For period ended 31st December, 1909. Actual salary at the rates shown in the staff books.

(2) MONTHLY AND DAILY PAID STAFF.

For the period ended 31st December, 1909, the average rate of pay for the year according to the records at the rate of 12 months for monthly staff and 313 days for daily paid staff. Proportionate deductions to be made for any time absent on leave without pay.

N.B.—Sunday work is invariably to be regarded as overtime, and therefore excluded by the Act.

36. In calculating arrears due in respect of services with other Administrations the Chief Accountant shall wherever possible take pensionable emoluments as shown in the records or pay-sheets of such Administrations or certified copies of records of service furnished by such Administrations. Where such records are not available such other evidence of the emoluments drawn as the Committee approve may be accepted. In calculating arrears regard shall be had only to emoluments of a nature corresponding to those described in the Act as pensionable emoluments. In cases of doubt as to whether any allowance or other payment shall be regarded as a pensionable emolument the decision of the Committee shall be final.

37. Contributions towards additional pensions shall not be made in the following cases:—

(a) Where the railway servant entered the service prior to his thirtieth birthday.

(b) In respect of service other than service with the Administration.

38. Without necessarily admitting such periods as periods of pensionable employment the Committee are empowered to disregard breaks in service which would otherwise invalidate applications to ante-date membership of the fund where it is established to their satisfaction that such breaks in service were due directly or indirectly to the military operations conducted in South Africa between 11th October, 1899, and 30th June, 1902. The Committee may further disregard breaks of service not exceeding one year at any one time where due to retrenchment or ill-health or to inability to obtain leave. No such application shall, however, be entertained in cases where the applicant was dismissed, or voluntarily resigned railway service to follow other employment.

Military service during the war period, and other breaks of service so disregarded, will be treated as leave of absence without pay.

5 MINISTERIAL DIVISION OF COMMISSIONER OF PUBLIC WORKS.

Breaks in service not due directly or indirectly to military operations in South Africa as set out above will as far as possible be dealt with in the following manner:—

(1) *Resignation:*

- (a) Voluntary.—Contributions to be allowed from date of rejoining the service.
- (b) Owing to Ill Health.—Break not exceeding one year may be treated as leave without pay, provided the applicant can produce proof to the satisfaction of the Committee that he was obliged to resign owing to ill-health.
- (c) Owing to inability under existing Regulations to obtain leave without pay.—Break not exceeding one year to be treated as leave without pay, provided the applicant can produce proof that he was obliged to resign.

(2) *Suspension owing to misconduct followed by reinstatement.*—Service to be regarded as continuous.(3) *Retrenchment.*—If the re-appointment, whether in the same or another branch of the service, took place within one year of the date of retrenchment the period covered by the break to be treated as leave of absence without pay.(4) *Dismissal or Enforced Resignation.*—Applicant to be admitted from date of rejoining only.

39. Contributions shall be collected by means of deductions on the pay-sheets as the salaries or wages are paid. Arrear contributions shall also be collected in this way at a rate of not less than 3 per cent. of current pensionable emoluments. In addition to any amounts so deducted from the pay-sheets members are at liberty to make remittances direct to the Chief Accountant in reduction of arrear contributions.

No arrear contributions to the Fund may be accepted from:—

(a) A person who has left the service or has been paid off;

(b) The legal or other representative of a deceased contributor,

or from any person on behalf of such individuals.

Applicants 50 years of age and over who apply for permission to contribute in respect of such a period of arrear service at such a rate as renders it impossible for them to discharge before reaching pensionable age sufficient arrear contributions to entitle them to a pension will only be admitted on condition that they make such arrangements for paying arrears as will entitle them to an annuity on reaching the prescribed age for superannuation.

40. When under the Act the liability for £ for £ contributions in respect of principal or interest falls on the contributor, it shall be understood that such £ for £ contributions are made by the member in lieu of and not in addition to £ for £ contributions by Revenue.

41. When under the Act the refund of a member's contributions is authorised such refund shall not include any amount which has been collected from the member in respect of interest unless such refund of interest is specifically provided for in the Act.

42. Applications for pensions or other benefits shall be on forms to be prescribed by the Committee, and shall be transmitted to the Committee by the General Manager.

43. The Chief Accountant shall compute the amount of any pension or other money benefits payable by the fund. The computation shall be certified as correct by the person auditing the railway accounts, and submitted for the approval of the Committee, and no pension shall be paid or be payable until the approval of the Committee has been obtained. Urgent cases of refund of contributions may be dealt with on the authority of the Executive Committee.

44. Payment of any pension so authorised shall be effected by the Chief Accountant. Pensions shall be paid monthly not later than the 6th day of the month succeeding that in respect of which the pension is due. Except in cases where a pensioner attends in person before the officer authorised to pay his pension and adduces satisfactory evidence of his identity, no payment of any pension shall be made until the pensioner has furnished to the Chief Accountant or other authorised officer a certificate under the hand of a Justice of the Peace, bank manager, or station master that he was alive on the last day of the month in respect of which the pension is claimed.

45. Claims for death benefits shall be payable within twenty-one days after production of satisfactory evidence of their validity and of the title of the claimant to such benefits.

46. Should a member die before his acceptance of the statement of arrears referred to in clause 24 of these Regulations has been obtained, such acceptance shall be assumed in so far as the deceased shall have made pay-

ment on account of such arrears, and any arrears actually paid or payable up to the date of death under the instructions of the member shall be taken into account for the purpose of arriving at the benefits payable from the Fund.

47. When a railway servant applies for an invalid pension he must submit the certificate of a Railway Medical Officer, which will be referred to the Medical Board hereinafter defined for a confidential opinion on the case, and the Medical Board shall be empowered to examine the railway servant itself, or to cause him to be examined by any medical practitioner nominated for the purpose.

48. A Medical Board, consisting of the railway servant's medical officer, and one medical officer selected by the General Manager, shall be appointed to report upon any cases in which a medical certificate is required in connection with the administration of the fund. If they cannot agree, the Board are empowered to appoint a third medical officer, and a majority report shall be submitted.

49. Railway servants in receipt of an annual salary and holding the following offices shall be considered as employees:—Barrage Clerk, Boatman, Boatswain, Caretaker, Checker, Chief Coxswain, Cook, Coxswain, Deckhand, Engine Driver, Engineer or Driver or Assistant Driver of tugs and steam vessels, Fireman, Foreman, Foreman Carpenter, Foreman in Charge of Farm, General Foreman, Harness Shop Foreman, Head or Chief Messenger, Mate, Messenger, Native Labourer, Night Watchman, Nurse, Office Keeper, Outdoor Clerk, Plant Director, Quarter-master, Quay Foreman, Sanitary Porter, Signalman, Storeman and Surgery Messenger.

50. The Chief Accountant of the Administration shall keep the necessary accounts and records of the fund. He shall prepare from time to time statements of the amounts due by the Government to the fund under the provisions of the Act and calculate any sums so due.

51. Separate accounts shall be kept for each division of the fund, viz.:—

Division I., for officers.

Division II., for employees.

52. For each division there shall be prepared as on 30th June in each year a statement showing the number of contributing and superannuated members and members who have joined, left, or been superannuated or died during the year.

53. There shall also be prepared as at the same date for each division of the fund a statement of receipts and disbursements and a balance-sheet in the form given in Annexure B.

54. The accounts of the fund shall be signed by the Chief Accountant, and shall thereafter be audited by the person auditing the railway accounts in terms of section forty-four of the Act.

55. The annual statement of membership and the audited statements of account referred to above shall be submitted to the Committee, and the Secretary shall circulate copies to each member of the fund.

56. In addition to the annual accounts, the Chief Accountant shall furnish to the Committee such statements relating to the fund as the Committee may from time to time require.

57. For the purpose of calculating benefits or interest in connection with any matters relating to the fund, a month shall be taken as one twelfth part of a year in all cases where nothing to the contrary is laid down in the Act or any regulation approved by the Committee.

58. The books of the fund and all other records and papers belonging to the fund shall at all reasonable times be open for the inspection of any member of the Committee.

59. The fund shall be valued at 30th June, 1915, and every five years thereafter by an actuary appointed by the Commissioner. The actuary shall report direct to the Commissioner, and shall in his report state the data and processes used in his investigation and valuation. He shall separately value the assets and liabilities of the two divisions of the fund, shall declare what surplus or deficiency appears on each division severally, shall state how such surplus or deficiency appears to have arisen, and shall advise how the same should be dealt with.

60. The fund shall be vested in and held in trust for members by the Commissioner, who shall have power of investing and reinvesting balances in the securities prescribed by law. The Committee may make recommendations on the subject to the Commissioner.

61. All regulations affecting the fund shall be notified to the staff by circular, but every regulation shall be deemed to be of force and effect when it has been published in the *Government Gazette*.

It shall be the duty of every head of an office to give every railway servant an opportunity of obtaining a copy of any such circular and of inspecting at all reasonable times a copy of the regulations affecting him.

Surveyor-General's Office,
Cape Town, 23rd February, 1910.

IN terms of Section 4, Act 26, of 1891, as re-enacted by Act No. 18 of 1897, it is hereby notified that the following piece of Crown Land, situate in the Division of the Cape, will be offered for Lease, by Public Auction, in front of the Civil Commissioner's Office, at Cape Town, at 11 o'clock a.m., on Thursday, 24th March, 1910, subject to the conditions and stipulations hereunder contained, and further to such conditions as may be declared on the day of Sale.

The Land will be let on Lease for any term not less than one year and not exceeding five years, to the highest bidder who shall have offered not less than the upset rent of £86 per annum, the term of lease to commence from the 1st of May, 1910.

The following are the Conditions of the Lease:—

1. One year's rent shall be paid to the Civil Commissioner on the day of Sale, and if the term of the Lease shall exceed one year the due payment in advance of the rent for the subsequent year or years shall be secured by approved sureties; provided that the Civil Commissioner may receive two years' rent in advance, in which case the said security shall not be required.
2. The Government reserves the right of terminating the Lease should it be thought expedient to sell the land or other circumstances render it necessary or expedient at any time, at two months' notice; and in such case the proportion of paid rent for any unexpired portion of the current year shall be refunded to the Lessee.
3. The site leased shall be used only for the purpose of Refreshment Rooms.
4. That only such refreshments shall be sold as may be approved by the Government, at prices to be fixed by

them, not exceeding the tariff at present used by Mr. Jacob Lurie, the present occupier.

5. That the Government shall have the right to cancel the Lease if the Refreshment Rooms be not properly conducted, or if they be not kept open throughout the term of the lease in a proper manner for the convenience of the public.

6. The Lessee shall not be entitled, at the expiration or other termination of his Lease, to any compensation for improvements effected on the Land, but he will be allowed a reasonable time within which to remove all buildings, etc.

7. The Government does not undertake to furnish the Lessee with a right of way from the Camps Bay Road.

8. The Lessee shall not transfer the Lease or sublet the land or any portion of it, or any buildings or erections thereon, without the written sanction of the Government first obtained.

9. The Lessee shall be bound to protect the beacons defining the limits of the land so leased from injury or removal.

10. The Lessee shall wholly and absolutely forfeit his Lease upon the breach of any conditions binding him.

11. The Government reserves to itself the right to limit the number of persons who may reside on the land hereby leased during the subsistence of the lease, and, upon the recommendation of the Divisional Council, after due enquiry made with cognisance of the Lessee, either to remove such numbers of persons as it may consider excessive or to cancel the lease as may seem to it equitable under the circumstances.

12. The occupation of land under this Lease shall not be held to be *bona fide* occupation under the provisions and for the purposes of Section 20 of Act No. 40 of 1895.

13. *The improvements on this land are valued at £1,050 and this amount shall be payable by the Lessee, not being the improver, within one month from the date of Lease—the Lessee being bound to produce two good and sufficient sureties, to the satisfaction of the Civil Commissioner, for the due payment thereof.*

14. *The Lessee will be required to pay, on the day of sale, the sum of £16 to cover cost of survey and other expenses incurred by the Government.*

Other conditions may be declared on the day of Sale. The Stamps required by Act No. 20 of 1884, to be affixed to the Contracts of Lease, will be furnished by the Government free of charge to the Lessee.

WHEREAS it has been shown to me to be expedient to amend and consolidate the restrictions imposed upon the introduction of Livestock into this Colony from the Transvaal by reason of the existence in that Colony of the disease amongst Cattle known as East African Coast Fever:

Now, therefore, under and by virtue of the powers and authorities in me vested by Act No. 27 of 1893, entitled the "Animal Diseases Act, 1893," as amended by Acts Nos. 16 of 1906 and 17 of 1908, I do hereby proclaim, declare and make known as follows, that is to say:—

1. Proclamations Nos. 202 of 1904, 284 and 325 of 1905 and 209 of 1909 are hereby and from the date of the promulgation hereof cancelled and repealed.

2. It shall not be lawful to introduce horned cattle or cause or allow them to be introduced or permit them to stray into this Colony from the Transvaal.

3. 4. The introduction of vehicles from the Transvaal to this Colony, drawn to the Cape Colony—Transvaal Border

by horned cattle, shall be permitted only through the Ports of Entry established at Rooigrond and Mosymiyani.

5. Notwithstanding anything to the contrary contained in the last preceding Regulation, it shall be lawful for oxen in yoke only, hauling transport wagons, to proceed from the Transvaal Border by way of the fenced road to Maribogo Siding, provided that such oxen shall not be outspanned within the area fenced for this purpose from the said Border to Maribogo Siding but shall return, after delivery of their load at the Siding named, to the Transvaal, and that the fenced road opened for this purpose shall only be used between the hours of sunrise and sunset.

Any person contravening any of the provisions of this Proclamation shall be liable on conviction to the penalties provided for such contravention by the said Act No. 27 of 1893; and any horned cattle which may enter this Colony from the Transvaal in contravention of this Proclamation shall be liable to be destroyed without compensation.

And I do strictly charge every Resident Magistrate, Police Officer, Field-cornet, Justice of the Peace and Inspector of Native Locations to see that this Proclamation is obeyed, and to bring to justice any person who may contravene the same.

- (c) To any owner of land or erven in the Douglas Settlement, if by such allotment his holding within the Settlement would exceed ten morgen of irrigable ground in extent.
- (d) To any person who at the time of application has made an arrangement or agreement to permit any other person to acquire by purchase or otherwise the land so applied for and

"15. The Minister shall issue to the first applicant, who shall have fulfilled the specified conditions for any land under this Act, or in the event of two or more applications for the same land, to the applicant determined by a lot, a licence to hold the land applied for on the following terms and conditions:

- "(a) The licence shall be for five years, reckoned from the next first July, or first January following the date of licence, and shall include the period between the date of licence and such day.
- "(b) The yearly payment in respect of such licence shall be equal to one-twentieth of the price fixed for the land so held, together with one-twentieth of the survey and other expenses on such land, and shall be paid in advance.
- "(c) The deposit paid at the time of application shall be in discharge of the amount due on the next first day of January or July, as the case may be.

6. MINISTERIAL DIVISION OF SECRETARY FOR AGRICULTURE.

- "(d) The person to whom such licence is issued shall within six months of the issue of his licence personally occupy the land allotted to him and shall continue so to occupy such land except as hereinafter provided, for the term of five years, or until he shall obtain a title to such land.
- "16. No land held under these terms and conditions shall be transferable during the currency of the licence mentioned in the clause next preceding.
- "17. In the event of any failure during the currency of the licence to perform the condition of occupation the Minister may declare the licence absolutely forfeited and the land in respect of which the licence is issued shall revert to Government: Provided that if it is proved to the satisfaction of the Minister that the failure to occupy was caused by drought he may excuse such failure, but such excuse shall not be given for a period of more than twelve months unless such drought continued for a longer period.
- "18. At the expiration of the five years for which any licence is granted, and if the Minister is satisfied that the conditions therein contained have been duly fulfilled he shall cause to be issued to the licensee a grant of the land held and occupied by him on quitrent tenure, subject to the conditions stated in section five of Act No. 15 of 1887, subject to the payment of fifteen annual instalments each of the amount of one-twentieth of the value of the land together with the value of the survey and other expenses which shall be a first charge on such land, and shall be secured by mortgage in favour of the Government: Provided that in the event of it being proved to the satisfaction of the Minister who shall require certificates to that effect that the licensee has after two years of occupation made permanent improvements on the land occupied by him under such licence equal at least to the value of the said land, the Minister may cause to be issued to him a title to the land held or occupied by him, subject to the payment of so many annual instalments of one-twentieth of the value of the land, together with the value of the survey and other expenses as shall, together with the annual payments made by him in respect of the licence to the said ground, make up the whole value, and such annual payments due shall be secured by mortgage.
- "19. If any instalment shall not be paid within three months of the date on which it is due and payable, an additional sum equal to one-fourth part thereof, by way of penalty, shall be added thereto, and shall together with the instalment overdue, be recoverable at the suit of the Government in any competent Court.

GENERAL CONDITIONS.

1. All applications should be sent in on or before Wednesday, the 15th June, 1910. Applications may, however, be submitted after the said date for such erven as shall not have been allotted, and these applications will in due course be considered by the Board.
2. For the purposes of this Notice one allotment may contain such number of erven as will give a total area of, approximately, 10 morgen of irrigable land, and the subdivision of erven into suitable allotments will be carried out by the Minister who on the recommendation of the Land Board, will also decide upon the extent of land to be allotted to each applicant.
3. Applicants who are desirous of leaving the selection of erven, on their behalf, in the hands of the Board, may omit in their applications to specify the particular erf or erven applied for, but may, in lieu thereof merely state the number of erven or the total number of morgen they desire to obtain.
4. The plan and form of Licence Deed may be seen at the Office of the Civil Commissioner at Douglas, and at the Surveyor-General's Office, Cape Town.

- (a) Niet den ouderdom van achttien jaar heeft bereikt;
- (b) Niet geneeskundig is onderzocht of hij of zij voor den dienst geschikt is;
- (c) Geëmployeerd wordt als een onbedreven arbeider, hetgeen insluiten zal alle bij den dag betaalde employees niet op de klerken staf wier pensioenbare emolumenten minder zijn dan 3s. 6d. per dag;
- (d) Die niet den voorgeschreven proeftijd (als er een is) heeft uitgediend;
- (e) Die in werk genomen is voor een bepaald tijdperk of voor constructie werk;

(f) Die geen aanstellingsbrief tot permanent werk heeft ontvangen;

zal beschouwd worden een tijdelijke spoorweg bediende te zijn.

29. Een spoorweg bediende aangesteld tot permanent werk op of na 1 Januari 1910, wiens ouderdom op den datum van zoodanige permanente aanstelling 40 jaar of meer is en jonger dan 50 jaar, kan kiezen een lid van het Fonds te worden binnen drie maanden van zijne aanstelling.

30. Tot de afkondiging van speciale regels en schalen van bijdragen en pensioenen welke noodig gevonden worden om te maken, zullen de regulaties en schalen van bijdragen en pensioenen van kracht met betrekking tot mannelijke spoorweg bedienden toepasselijk zijn op vrouwelijke spoorweg bedienden.

31. Voldoende bewijs van ouderdom moet worden overgelegd binnen zes maanden vanaf den datum waarop de bijdragen tot het Fonds beginnen.

Voldoende bewijs van ouderdom zal geacht worden te zijn:

- (1) Afschrift van geboorte certificaat, behoorlijk geauthentikeerd;
- (2) Levens Polis gevende datum van geboorte en gemerkt "Ouderdom goedgekeurd."

Waar bijdragers niet in staat zijn het bovengenoemde bewijs te geven, kan het Comité het volgende in plaats daarvan aannemen:—

- (3) Afschrift van doopcertificaat, gevende datum van geboorte, behoorlijk geauthentikeerd.
- (4) In het geval van spoorweg bedienden geëmployeerd op 1 Januari 1910, bewijs uit de Staf boeken der Administratie.
- (5) Zoodanig ander bewijs als het Comité voldoende voor het doel acht.

Iedere getrouwde spoorweg bediende die bijdraagt tot het Fonds hetzij vanaf of vóór 1 Januari 1910, moet zijn huwelijks certificaat sturen aan den Secretaris, niet later dan 30 Juni 1910.

Iedere spoorweg bediende die trouwt nadat hij een bijdrager is geworden moet zijn huwelijks certificaat niet later dan drie maanden na den trouwdag inleveren.

32. De pensioenbare emolumenten waarop bijdragen tot het Fonds moeten worden betaald, zijn als volgt:—

- (a) *Gesalarieerde staf*: Substantieel salaris.
- (b) *Bij den dag betaalde staf*: Substantieel loon. N.B.—In het geval van Staf geëmployeerd op stuk werk zullen de pensioenbare emolumenten berekend worden op de basis van het dagloon, vermenigvuldigd met het aantal werkdagen in de maand.
- (c) *Alle Gesalarieerde en bij den dag betaalde Staf*: De waarde van vrij huis. Eenige toelage in plaats van vrij huis. De geschatte waarde van rantsoen.

Ten einde de loopende bijdragen te berekenen zal tijd gerekend op Zondagen (uitgezonderd den tijd gewerkt door Machinisten, Stokers en Conducteurs geëmployeerd op het "Trip" stelsel) als overtijd worden beschouwd.

33. De waarde van het vrije huis zal worden geschat tegen een zesde van de overblijvende pensioenbare emolumenten.

34. Ten einde de bijdragen van een lid te weten te komen zal de waarde van het rantsoen bepaald worden door het Comité na aanbeveling te hebben gekregen van het hoofd van het departement waarin de bijdrager werkzaam is. Door drie maanden kennis te geven aan den bijdrager, kan het Comité van tijd tot tijd de schatting van de waarde van zoodanige rantsoenen vermeerderen of verminderen.

35. Bij berekening van de achterstallige bijdragen verschuldigd voor dienst bij de Administratie, zal de Hoofd Accountant de volgende basis aannemen:—

(1) GESALARIEERDE STAF.

Voor het tijdperk tot 31 December 1909. Werkelijk salaris tegen de sommen aangetoond in de staf boeken.

(2) MAANDELIJSCH EN BIJ DEN DAG BETAALDE STAF.

Voor het tijdperk geëindigd 31 December 1909, het gemiddelde loon per jaar volgens de boeken, berekend tegen den koers van 12 maanden voor maandelijksche Staf en 313 dagen voor bij den dag betaalde Staf. Evenredige verminderingen te worden gemaakt voor eenigen tijd afwezig op verlof zonder betaling.

N.B.—Zondag werk zal steeds worden beschouwd als overtijd, en wordt derhalve volgens de Wet niet medegerekend.

5. MINISTERIEËLE AFDEELING VAN COMMISSARIS VAN PUBLIEKE WERKEN.

36. Bij het berekenen van achterstallige bijdragen verschuldigd voor werk bij andere Administraties, zal de Hoofd Accountant waar mogelijk pensioenbare emolumenten nemen zooals die aangetoond zijn in de boeken of loonlijsten van zoodanige Administraties of gecertificeerde afschriften van dienst registers geleverd door zoodanige Administraties. Waar zoodanige dienstboeken niet verkrijgbaar zijn, zoodanig ander bewijs van de emolumenten getrokken als het Comité zal goedkeuren, kan worden aangenomen. Bij het berekenen van achterstallige bijdragen zal alleen gelet worden op emolumenten van een soort overeenkomende met die welke beschreven zijn in de Wet als pensioenbare emolumenten. In gevallen van twijfel of eenige toelage of andere betaling beschouwd zal worden als een pensioenbaar emolument zal de uitspraak van het Comité beslissend zijn.

37. Bijdragen tot additioneele pensioenen mogen niet worden gemaakt in de volgende gevallen:—

(a) Waar de spoorweg beambte in dienst trad vóór zijn dertigsten verjaardag.

(b) Met betrekking tot dienst andere dan dienst bij de Administratie.

38. Zonder noodzakelijkerwijs zoodanige tijdperken toe te laten als tijdperken van pensioenbaren dienst, is het Comité gemachtigd buiten rekening te laten afbrekingen in den dienst die anders applicaties voor eerder lidmaatschap van het Fonds zouden ongeldig maken, wanneer het ter hunner voldoening bewezen is, dat zoodanige afbrekingen in den dienst direkt of indirekt toe te schrijven waren aan de krijgsverrichtingen die in Zuid-Afrika plaats hadden tusschen 11 October 1899 en 30 Juni 1902. Het Comité kan verder buiten rekening laten afbrekingen in den dienst niet langer durende dan één jaar achtereen, toe te schrijven aan besnoeiing, of ziekte of onmogelijkheid om verlof te krijgen. Zoodanige applicatie zal echter niet in aanmerking komen in gevallen waar de applikant werd ontslagen of vrijwillig uit den spoorwegdienst ontslag nam om een andere betrekking te aanvaarden.

Militaire dienst gedurende den oorlog en andere afbrekingen in den dienst aldus buiten rekening gelaten, zullen worden beschouwd als verlof van afwezigheid, zonder betaling.

Afbrekingen in den dienst niet direkt of indirekt toe te schrijven aan krijgsverrichtingen in Zuid Afrika zooals boven uiteengezet, zullen voor zoover als mogelijk is behandeld worden op de volgende manier:—

(1) *Aftreding*:—

(a) *Vrijwillig*.—Bedragen te worden toegestaan vanaf datum van weder in dienst treding.

(b) *Wegens ziekte*.—Afbrekingen niet langer dan één jaar kunnen worden behandeld als verlof zonder betaling, mits de applikant bewijs kan geven ter voldoening van het Comité, dat hij genoodzaakt was te bedanken wegens slechte gezondheid.

(c) *Wegens onmogelijkheid om onder bestaande Regulaties verlof te krijgen zonder betaling*. Afbreking niet langer dan één jaar te worden beschouwd als verlof zonder betaling, mits de applikant bewijs kan leveren dat hij genoodzaakt was af te treden.

(2) *Schorsing wegens wangedrag gevolgd door weder-aanstelling*.—Dienst te worden beschouwd als achtereen volgend.

(3) *Besnoeiing*.—Indien de weder-aanstelling, hetzij in denzelfden tak of een anderen tak van den dienst, plaats had binnen één jaar vanaf den datum der Besnoeiing, zal het tijdperk gedekt door den afbreking worden beschouwd als verlof van afwezigheid zonder betaling.

(4) *Ontslag of Gedwongen Aftreding*.—Applikant te worden toegelaten vanaf datum van opnieuw in betrekking treden alleen.

39. Bijdragen zullen worden ingezameld door aftrekkingen op de loonlijsten als de salarissen of loonen betaald worden. Achterstallige bijdragen moeten ook op deze manier ingezameld worden bedragende niet minder dan 3 percent van de loopende pensioenbare emolumenten. Behalve eenige bedragen aldus afgetrokken van de loonlijsten, hebben leden de vrijheid gelden direkt te zenden aan den Hoofd Accountant in vermindering van achterstallige bijdragen.

Geen achterstallige bijdragen tot het Fonds kunnen worden aangenomen van:—

(a) Een persoon die den dienst heeft verlaten of die is afbetaald;

(b) De wettige of andere vertegenwoordiger van een overleden bijdrager, of van een persoon ten behoeve van zoodanige personen.

Applikanten 50 jaar oud en meer, die aanvraag doen om vergunning om bij te dragen voor zoodanig tijdperk van vroegere dienst tegen zoodanigen koers dat het onmogelijk is voor hen om vóór dat zij den pensioenbaren ouderdom bereiken, voldoende achterstallige bijdragen te betalen om hen gerechtigd te maken op een pensioen, zullen alleen worden toegelaten op voorwaarde dat zij zoodanige regelingen maken om achterstallige bedragen te betalen als hen zullen gerechtigd maken op een jaargeld als zij den voorgeschreven ouderdom van aftreding bereiken.

40. Wanneer onder de Wet de verantwoordelijkheid van £ voor £ bijdragen wat betreft de hoofdsom en rente op den bijdrager valt, zal het aangenomen worden dat zoodanige £ voor £ bijdragen worden gemaakt door het lid in plaats van en niet in toevoeging tot £ voor £ bijdragen door de Schatkist.

41. Wanneer onder de Wet de teruggave van de bijdragen van een lid wordt gemachtigd, zal zoodanige teruggave niet insluiten eenig bedrag dat gecollecteerd is van het lid voor rente, tenzij zoodanige teruggave van rente speciaal in de Wet is bepaald.

42. Aanvragen om pensioenen of andere voordeelen zullen in de vormen zijn te worden voorgeschreven door het Comité, en zullen aan het Comité worden gezonden door den Algemeenen Bestierder.

43. De Hoofd Accountant zal het bedrag berekenen van een pensioen of andere geldelijke voordeelen betaalbaar uit het Fonds. De berekening zal als korrekt gecertificeerd worden door den persoon die de spoorweg rekeningen auditeert, en ter goedkeuring aan het Comité voorgelegd worden, en geen pensioen zal betaald worden of betaalbaar zijn, totdat de goedkeuring van het Comité is verkregen geworden. Spoedeisende gevallen van teruggave van bijdragen kunnen afgehandeld worden op de autoriteit van het Uitvoerend Comité.

44. Een aldus gemachtigd pensioen zal worden uitbetaald door den Hoofd Accountant. Pensioenen zullen maandelijks worden betaald niet later dan den 6den dag der maand volgende de maand waarvoor het pensioen betaalbaar is. Uitgezonderd in gevallen waarin een gepensioneerde persoonlijk gaat naar den beambte gemachtigd zijn pensioen te betalen en voldoende bewijs geeft van zijn identiteit, zal geen betaling van eenig pensioen plaats hebben totdat de gepensioneerde aan den Hoofd Accountant of ander gemachtigd beambte een certificaat heeft gegeven ondertekend door een Vrederechter, bank bestierder of stationchef, dat hij in leven was op den laatsten dag der maand waarvoor het pensioen wordt geëischt.

45. Aanspraken op voordeelen bij overlijden zullen betaalbaar zijn binnen een-en-twintig dagen na overlegging van voldoende bewijs van hunne geldigheid en van het recht van den eisder op zoodanige voordeelen.

46. Indien een lid sterft vóór dat zijn aanneming van de berekening van achterstallige bijdragen genoemd in Clausule 24 dezer Regulaties is verkregen, zal verondersteld worden dat hij die heeft aangenomen voor zoo ver de overledene paaiementen heeft gemaakt op rekening van zoodanige achterstallige bijdragen, en eenige achterstallige bedragen werkelijk betaald of betaalbaar tot op den datum van overlijden, onder instructies van het lid zullen in rekening worden genomen bij berekening van de voordeelen betaalbaar uit het Fonds.

47. Wanneer een spoorweg beambte aanzoek doet om een pensioen wegens ziekte, moet hij het certificaat van een Spoorweg Dokter overleggen, hetgeen gestuurd zal worden naar het Geneeskundige Bestuur hierna opgericht, voor een confidentieele uitspraak over de zaak, en het Geneeskundige Bestuur zal gemachtigd worden den spoorweg beambte zelf te onderzoeken of hem te doen onderzoeken door een dokter voor het doel genomineerd.

48. Een Geneeskundige Bestuur bestaande uit den dokter van den spoorweg beambte en een dokter gekozen door den Algemeenen Bestierder, zal worden aangesteld om te rapporteeren over eenige gevallen waarin een geneeskundig certificaat noodig is in verband met de administratie van het Fonds. Als zij niet overeenstemmen kunnen, is het Bestuur gemachtigd een derde dokter aan te stellen, en een meerderheids rapport zal worden voorgelegd.

49. Spoorweg beamtenden die een jaarlijksch salaris ontvangen en de volgende betrekkingen bekleeden zullen als employees worden beschouwd:—Bagage Klerk, Bootsman, Schipper, Oppasser, Tellers, Hoofd Stuurman, Kok, Stuurman, Dekarbeider, Machinist of Assistent Machinist van sleepbooten en stoombooten, Stoker, Voorman, Eerste Timmerman, Voorman in toezicht van Plaats, Algemeene Voorman, Tuigenwinkel Voorman, Eerste of Hoofd Bode, Maat, Bode, Inboorlingen Arbeider, Nachtwacht, Ziekenverpleegster, Kantooroppasser, Buiten Klerk, Opzichter van materiaal, Kwartiermeester, Kaai Voor-

man, Oppasser van sanitaire gemakken, Baanwachter, Uitdeeler van voorraad, en Bode van dokter.

50. De Hoofd Accountant van de Administratie zal de noodige rekeningen en dokumenten van het Fonds houden. Hij moet van tijd tot tijd rekeningen opmaken van de bedragen verschuldigd door het Gouvernement aan het Fonds onder de bepalingen van de Wet en eenige sommen aldus verschuldigd berekenen.

51. Afzonderlijke rekeningen zullen worden gehouden voor iedere afdeeling van het Fonds, nam. :—

Afdeeling I, voor beampten.

Afdeeling II, voor geëmployeerden.

52. Voor iedere afdeeling zal er op 30 Juni in ieder jaar een opgave worden opgesteld aantoonende het aantal bijdragende en op ouderdom gepensioneerd leden en leden die bijgetreden, vertrokken of gepensioneerd zijn of gestorven zijn gedurende het jaar.

53. Op den zelfden datum moet er voor iedere afdeeling van het Fonds ook een rekening van inkomsten en uitgaven en een balans rekening opgemaakt worden in den vorm voorgeschreven in bijlage B.

54. De rekeningen van het Fonds zullen worden geteekend door den Hoofd Accountant en daarna moeten zij nagezien worden door den persoon die de spoorweg rekeningen auditeert overeenkomstig sectie vier-en-veertig der Wet.

55. De jaarlijksche opgave van ledental en de geauditeerde rekeningen boven vermeld moeten worden voorgelegd aan het Comité, en de Secretaris moet exemplaren ervan sturen aan ieder lid van het Fonds.

56. Behalve de jaarlijksche rekeningen, moet de Hoofd Accountant aan het Comité zoodanige opgaven betreffende het Fonds voorleggen als het Comité van tijd tot tijd verlangt.

57. Ten einde de voordeelen of rente te berekenen in verband met eenige zaken betreffende het Fonds, zal een maand beschouwd worden als een twaalfde deel van een jaar in alle gevallen waar niets daarmede tegenstrijdig bepaald is in de Wet of eenige regulatie goedgekeurd door het Comité.

58. De boeken van het Fonds en alle andere geschriften en dokumenten behorende aan het Fonds zullen op alle redelijke tijden ter inzage open liggen voor eenig lid van het Comité.

59. Het Fonds zal worden geschat op 30 Juni 1915 en iedere vijf jaar daarna door een actuaire benoemd door den Commissaris. De actuaire moet direkt rapporteeren aan den Commissaris, en moet in zijn rapport vermelden de gegevens en manier gebruikt bij zijn onderzoek en schatting. Hij moet afzonderlijk de baten en lasten van de twee afdeelingen van het Fonds waardeeren, verklaren welke batig of nadeelig saldo er in iedere afdeeling afzonderlijk is, vermelden hoe zoodanige baten of tekorten schrijven te zijn ontstaan, en adviseeren hoe daarmede te handelen.

60. Het Fonds zal worden gevestigd in en in trust gehouden worden voor leden door den Commissaris, die macht zal hebben balansen te beleggen of opnieuw te beleggen in de securiteiten door de Wet voorgeschreven. Het Comité kan aanbevelingen maken over het onderwerp aan den Commissaris.

61. Alle regulaties betrekking hebbend op het Fonds zullen aan de Staf per circulaire worden bekend gemaakt, maar iedere regulatie zal geacht worden van kracht en effect te zijn wanneer zij wordt gepubliceerd in de *Gouvernements Gazette*.

Ieder hoofd van een kantoor is verplicht iederen spoorweg beampte gelegenheid te geven een exemplaar te verkrijgen van eenige zoodanige circulaire en op alle redelijke tijden een exemplaar van de regulaties die op hem betrekking hebben, te inspecteeren.

"I declare that the values appearing on the body of this invoice (exclusive of the "buying commission" shown on such document) represent, at the date of the invoice, the fair market value of goods for home consumption in the United Kingdom (or as the case may be) and free on board at the port of export in such country."

CUSTOMS NOTICE.

No. 1478.

SOUTH AFRICAN PRODUCTS EXPORTED
TO AUSTRALIA.INVOICE VALUES AND BUYING COMMISSION
FOR AUSTRALIAN CUSTOMS PURPOSES.

AN Order (No. 1169) issued by the Commonwealth Department of Trade and Customs on December 3rd last relative to the inclusion of "buying commission" in the value for duty of goods imported into the Australian Commonwealth has been published in abridged form by the Board of Trade (Commercial Department) in the *Board of Trade Journal* of February 10th, 1910, which is now re-published hereunder for the information of South African Exporters and others concerned:—

In all cases in which invoices tendered by importers are those made out by oversea buying agents, such agents should be regarded as the vendors of the goods, and the amount of any so-called "buying commission" included in the value for duty, unless the Collector of Customs is satisfied from the production of:

- (a) The original manufacturer's invoices; or
- (b) Other sufficient evidence

that the values appearing in the body of the agent's invoice (i.e., exclusive of the charge described as "buying commission") represent the cash prices for home consumption in the country of export.

The Commonwealth Government further states that it is recognised as impracticable for the buying agent to forward the original makers' invoices in cases where he buys from the latter in large quantities, which are split up by him into shipments to several clients. There are also other cases in which for business reasons the buying agent is averse to disclosing the name of the manufacturer.

To meet such cases it has been decided that, as a general rule, the charge for buying will not be included in the value for duty, if the invoice from the buying agent bear a declaration made by him in the following or similar terms:—

INCOME TAX, 1909.

PUBLIC NOTICE TO MAKE RETURNS.

IN pursuance of "The Income Tax Act, 1909," which imposes an Income Tax upon incomes exceeding £50, arisen or accrued during the year ended 30th June, 1909, and in respect of the occupation of houses during the said year which together with land occupied therewith were of the value of £75, notice is hereby given that the following persons residing in the Division or District of Barkly West are required to furnish at this Office within thirty days of the date hereof, returns for the purpose of the assessment of Income Tax of incomes arisen or accrued to them either personally or in any representative capacity during the year ended 30th June, 1909:—

- (1) Every Public Officer of a Company;
- (2) Every person whose taxable income during the year ended 30th June, 1909, exceeded £300;
- (3) Every other person liable to tax who has not already been assessed for Income Tax in respect of income arisen or accrued or occupation during the said year.

No female whose income during the said year did not exceed £300 is liable to tax, but the income of a woman married with or without community of property, and living with, or not legally separated from her husband, is deemed to be income accrued to her husband, and such income must be included in his return.

Any person who may not receive a form applicable to his particular case may obtain such form on application to me.

No person is exempted from the penalties in the next succeeding Sections mentioned by reason merely of the fact that

- (1) Such person may prove not to be liable to taxation, or
- (2) That such person may not have been called upon individually to render a Return.

Any person or company making a false return is liable under the said Acts to a penalty of £100, and to be assessed double the amount of Tax to which he otherwise would be charged; and any person whether liable or not liable to tax failing to furnish the prescribed Return within the prescribed time, or to furnish any further or fuller Return required from him, is liable for each offence to a penalty of a fine not exceeding £10, or, in default of payment, three months imprisonment with or without hard labour.

[1910.]

Surveyor-General's Office,
Cape Town, 23rd February, 1910.

IN terms of Section 4, Act 26, of 1891, as re-enacted by Act No. 18 of 1897, it is hereby notified that the following piece of Crown Land, situate in the Division of

the Cape, will be offered for Lease, by Public Auction, in front of the Civil Commissioner's Office, at Cape Town, at 11 o'clock a.m., on Thursday, 24th March, 1910, subject to the conditions and stipulations hereunder contained, and further to such conditions as may be declared on the day of Sale.

The Land will be let on Lease for any term not less than one year and not exceeding five years, to the highest bidder who shall have offered not less than the upset rent of £86 per annum, the term of lease to commence from the 1st of May, 1910.

The following are the Conditions of the Lease:—

1. One year's rent shall be paid to the Civil Commissioner on the day of Sale, and if the term of the Lease shall exceed one year the due payment in advance of the rent for the subsequent year or years shall be secured by approved sureties; provided that the Civil Commissioner may receive two years' rent in advance, in which case the said security shall not be required.

2. The Government reserves the right of terminating the Lease should it be thought expedient to sell the land or other circumstances render it necessary or expedient at any time, at two months' notice; and in such case the proportion of paid rent for any unexpired portion of the current year shall be refunded to the Lessee.

3. The site leased shall be used only for the purpose of Refreshment Rooms.

4. That only such refreshments shall be sold as may be approved by the Government, at prices to be fixed by them, not exceeding the tariff at present used by Mr. Jacob Lurie, the present occupier.

5. That the Government shall have the right to cancel the Lease if the Refreshment Rooms be not properly conducted, or if they be not kept open throughout the term of the lease in a proper manner for the convenience of the public.

6. The Lessee shall not be entitled, at the expiration or other termination of his Lease, to any compensation for improvements effected on the Land, but he will be allowed a reasonable time within which to remove all buildings, etc.

7. The Government does not undertake to furnish the Lessee with a right of way from the Camps Bay Road.

8. The Lessee shall not transfer the Lease or sublet the land or any portion of it, or any buildings or erections thereon, without the written sanction of the Government first obtained.

9. The Lessee shall be bound to protect the beacons defining the limits of the land so leased from injury or removal.

10. The Lessee shall wholly and absolutely forfeit his Lease upon the breach of any conditions binding him.

11. The Government reserves to itself the right to limit the number of persons who may reside on the land hereby leased during the subsistence of the lease, and, upon the recommendation of the Divisional Council, after due enquiry made with cognisance of the Lessee, either to remove such numbers of persons as it may consider excessive or to cancel the lease as may seem to it equitable under the circumstances.

12. The occupation of land under this Lease shall not be held to be *bona fide* occupation under the provisions and for the purposes of Section 20 of Act No. 40 of 1895.

13. *The improvements on this land are valued at £1,050 and this amount shall be payable by the Lessee, not being the improver, within one month from the date of Lease—the Lessee being bound to produce two good and sufficient sureties, to the satisfaction of the Civil Commissioner, for the due payment thereof.*

14. *The Lessee will be required to pay, on the day of sale, the sum of £16 to cover cost of survey and other expenses incurred by the Government.*

Other conditions may be declared on the day of Sale. The Stamps required by Act No. 20 of 1884, to be affixed to the Contracts of Lease, will be furnished by the Government free of charge to the Lessee.

"18. Op het einde van de vijf jaren voor welke eenig licentie gegeven is, en indien de Minister tevreden is dat aan de condities daarin vervat behoorlijk is voldaan, zal hij laten uitreiken aan den licentiehouder een schenking op het land gehouden en bewoond door hem op erfpacht tenure, onderworpen aan de condities vermeld in Sectie V van Wet 15 van 1887, onderworpen aan betaling van vijftien jaarlijksche paaiementen, elk van het bedrag van een twintigste van de waarde van het land, tezamen met de waarde van de landmeting en andere onkosten die een eerste last zullen wezen op zulk land, en verzekerd worden door een verband ten gunste van het Gouvernement: Tenzij dat in geval het bewezen is geworden tot bevrediging van den Minister, die certificaten zal noodig hebben te dien effekte, dat de licentie houder na twee jaren van occupatie permanente verbeteringen gemaakt heeft op het land bewoond door hem onder zoodanige licentie ten minste van gelijke waarde van genoemd land, de Minister dan aan hem mag uitreiken een grondbrief op het land gehouden of bewoond door hem, onderworpen aan de betaling van zoo vele jaarlijksche paaiementen van een twintigste van de waarde van het land, tezamen met de waarde van de opmeting en andere onkosten, die zullen, tezamen met jaarlijksche paaiementen betaald door hem, in verband met de licentie van genoemde grond, de geheele waarde opmaken, en zulk jaarlijksche verschuldigde paaiementen zullen vast gezet worden door verband.

2. COLONIAL SECRETARY'S MINISTERIAL DIVISION.

[1910.]

Colonial Secretary's Office,
Cape Town, 14th March, 1910.

THE following Report of the Government Labour Bureau for the month of February, 1910, is published for general information.

NOEL JANISCH,
Under Colonial Secretary.

GOVERNMENT LABOUR BUREAU.

STATE OF THE LABOUR MARKET: MONTHLY REPORT.

FEBRUARY, 1910.

Wood Working Machinist	1
Total	138

The demand during the preceding month was 317. In comparing the demand for labour with that for the preceding month, it will be seen that there was a decrease of 179. This decrease was solely due to the falling off in the demand (at the Bureau) for unskilled coloured labourers. As, however, native labour agents continued to be particularly busy and are in fact offering special inducements to labourers, it would appear that Cape coloured men have little difficulty in securing employment in either the Transvaal or German South-West Africa. the latter centre being as a rule preferred.

The unfilled vacancies were as follows:—Boot lasters, brushmaker, cabinetmaker, cardboard box maker, cropper hands, electrical fitter, patternmaker, stonemasons (kerb dressers), upholsterer, wagon-smith, and wood working machinist. Applications are invited for the post of Asylum Attendant; candidates must be unmarried, robust, intelligent, age about 27 and of very good character.

The number of men sent to definite work by the Labour Bureau was 72, made up as follows:—Building trades, 3; engineering trades, 7; factory workers, 1; clerks, canvassers, salesmen, etc., 0; servants (indoor and outdoor), 17; overseers, warders, and attendants, 2; farm hands, 0; labourers, 42.

14 women registered their names for employment, and of this number 12 were provided with work as monthly servants and charwomen.

In this branch all the above applications were received from coloured persons, there being no difficulty in providing situations at short notice for all servants of good character.

Some of the women in receipt of Government rations have also been given opportunities of earning money as needlewomen and charwomen—work which enables them to return to their homes at night and to provide necessary renewals of clothing for themselves and children. Any employer desirous of engaging women for work of this nature and thus affording practical assistance to really hardworking and deserving subjects are requested kindly to forward their applications to the Labour Bureau, Lelie Street.

The total number of applications for employment (including renewals) received during the period under report was 318, of which the following is an analysis:—

	EUROPEAN.		COLOURED.	
	Class I.	Class II.	Class I.	Class II.
Artizans, building trades	6	5	3	31
Artizans, Engineering trades	8	1	3	7
Factory workers (not included in above)	5	3	4	11
Clerks, bookkeepers, storemen, canvassers and salesmen	12	3	1	5
Coachmen, gardeners, waiters, &c.	3	4	4	31
Overseers, warders, gangers, etc.	1	2	—	—
Farm hands	1	—	—	14
Labourers and handy-men	14	11	9	116
Totals	50	29	24	215
Grand Total	318			

380 applications were received during the preceding month.

In commenting on the number and class of the above applications for work it is observed that there is a growing disposition on the part of applicants to wait for the most favourable opportunities of employment rather than accept the first situation offering a living wage. In this connection it may be noted that all able-bodied men may, if they so desire, be drafted to railway construction works within a few days after their applications have been received.

BUILDING TRADES: WORK IN PROGRESS.

The undermentioned buildings were in course of erection during the month, the number of men employed being as follows:—

INDUSTRIES.

Granite-dressing.—Moderately busy, with the prospect of a considerable improvement in the near future. Many enquiries have been received of late, particularly from the Northern Colonies. *Shop-fitting*.—A number of orders were in course of execution, a large proportion being for the Transvaal, and staffs have been increased. *Joinery*.—All machinists, sawyers, etc.; continue to be busily employed, and the outlook for journeymen carpenters appears to be improving. *Furniture manufacture*.—Brisk. Qualified upholsterers, cabinet-makers, and polishers may be provided with employment on application at the Bureau. *Tanning*.—Very busy. Raw hides were never so scarce as at the present time, owing to the large purchases made for European markets, the result being that firms in the Cape Colony are very much hampered. Leading firms report that the industry is also placed at a great disadvantage by the Harbour charges on bark imported from the coast, and the opinion is expressed that the rates are so heavy as to threaten the very existence of the industry. *Sail and tent-making*.—A considerable improvement is reported, and a few additional hands were engaged. *Bootmaking*.—Busy. Particulars of vacancies for lasters, finishers, and apprentices may be obtained on application at the Bureau. *Harness-making and saddlery*.—Very busy; all hands are working overtime. *Sheet metal-working*.—All hands continue to be busily engaged in connection with the execution of orders received from the Northern Colonies and German South-West Africa. A number of baths and sanitary buckets are in course of manufacture for the latter centre. Particulars of vacancies for two competent artisans may be obtained at the Bureau. *Leaden pipe and solder-making*.—There was a slight falling off in the amount of piping manufactured, but the solder-makers were exceedingly busy, many consignments of wire and strip being despatched to up-country centres. The Wynberg Municipality have accepted a local tender for the supply of piping and pig lead for the ensuing twelve months. *Plumbing*.—This industry is still in a dull condition, but no applications for employment were received at the Bureau. *Painting and decorating*.—Improving. Quite a number of hire houses are in course of re-decoration. *Paint-making*.—This industry appears to be slowly improving, but no additional hands were engaged. *Milling*.—Quiet. *Brush-making*.—Very busy. A number of men and girls were provided with work, and there is still a special demand for bristle dressers and brushmakers. *Engineering*.—There was not quite so much work in hand in connection with repairs to shipping as during the previous month, but nearly all firms report that their regular hands have been fully employed and that enquiries have been brisk. On the whole it would appear that more work was in hand than during January, and that fully competent fitters, erectors, and moulders had little difficulty in obtaining employment. *Printing*.—Compositors and machinists were fully employed, and the outlook is considered to be bright. Lithographers were particularly busy, several vacancies being notified. A little less work was in hand for binders, but there was no lack of work for linotype operators both English and Dutch. *Fibro-plaster and cement working*.—Very dull; there is practically no work in hand at the present time. *Fish-curing and packing*.—Fairly busy. *Tobacco*

and Cigarette manufacture.—Very fair. The demand, especially from the Northern Colonies, is reported to be steadily increasing. It has not been possible to obtain statistics from all manufacturers showing the number of persons engaged in this industry, but in one instance the number of hands has been increased by 15 per cent. and in another case 20 per cent., during the last six months. *Tailoring*.—A continued improvement is reported in all branches of this trade, and it is very noticeable that the orders received from the country are steadily increasing. The town "bespoke" trade is better than it has been for some time, although February is usually a quiet month. A good supply of second-class hands is available, but first-class men are scarce, there being a difficulty in obtaining machinists, pressers, and coat-makers. In the "ready-made" branch there is considerable activity, and a number of girls have obtained work. *Jam-making*.—Fruit is still plentiful, with the effect that all hands are fully employed. *Confectionery*.—A slight improvement is reported and business generally is better than during the corresponding period last year.

OTHER WORKS IN PROGRESS.

The following are particulars of Municipal and other works in progress, the number of men employed being stated in parenthesis:—

CAPE TOWN.—*Loan Work (Adopted Streets)* (E. 11, C. 25). *Foreshore Reclamation* (E. 7, C. 19). *Strand Street Quarry* (E. 4, C. 34). *Roadways, Dock Area* (E. 2, C. 6). WYNBERG.—*New Reservoir* (E. 20, C. 98). This work will probably be completed at the end of March. *Ende Kail Railway Works*.—No men were despatched to this centre during the period under report owing to the small number of able-bodied European labourers registering their names for employment.

RELIEF WORKS.

The following are the statistics in regard to Relief Works:—

SALVATION ARMY.

1,676 men, or 59.6 per night, were accommodated with beds at the Workmen's Metropole, as compared with 2,074 in January.

4,664 rations were issued during the preceding month.

THE CAPE PENINSULA CHARITY ORGANISATION.

The Secretary of the above Organisation reports that 55 fresh applications were received during the month of February, 1910.

The applications represented 82 adults (68 European and 14 coloured), and 91 children. 28 applications were received from married couples, 22 from single men, 3 from widows, and 1 from a widower. After due enquiry the deserving cases were referred to the various societies and institutions providing employment and administering relief, or temporarily relieved according to their needs.

Each Tender to be marked on cover "Tenders for Supplies for the Military Hospital, King William's Town or Umtata," as the case may be, and to be written on C.S.O. Form No. 131, which can be obtained at the Hospitals on application, and which specifies the mode of tendering and acceptations thereof.

Samples of all articles indicated by an asterisk and marked with the name of the Tenderer to be forwarded to the Medical Officer, for inspection and comparison not later than noon on the date of the Tender, without which no Tender will be accepted.

All Samples retained for future use will be paid for, those not required will, if desired by the Tenderer, be returned at his own expense.

The Government does not bind itself to accept the lowest or any Tender, and reserves the option of accepting any portion of a tender without the whole.

Upon the acceptance of any Tender, wholly or in part, the person tendering and the sureties will be required to enter into a contract with the Medical Officer in charge of the Institution to which the supplies relate, the form of which may at any time be inspected at the Hospital concerned, and with which the Tenderer will be presumed to have made himself fully acquainted at the time of making his Tender.

It is to be understood by Tenderers that any member of the Permanent Medical Staff shall be entitled to avail himself of the right to purchase at contract rates.

To ensure consideration, persons tendering are requested to insert the articles in their Tenders in the order given. The signatures of two Sureties will be required to every Tender.

Colonial Producers and Manufacturers will, in connection with the consideration of their tenders, be given a preference of 10 per cent. on supplies produced or manufactured entirely from British South African grown articles and 5 per cent. on supplies manufactured in British South Africa from imported ingredients or partly so.

Tenderers for supplies of British South African production or manufacture, from articles entirely grown in British South Africa, should, in order to obtain the benefits of preference as indicated in the preceding paragraph, be careful to insert in their Tender the words "South African" opposite each of the items concerned. In cases where the supplies tendered for are manufactured in the British South African Colonies from imported ingredients the items concerned should be marked "part South African." In the event of the terms of differentiation not being shown it will be assumed that the Tender is for an Imported article.

CUSTOMS NOTICE.

No. 1478.

SOUTH AFRICAN PRODUCTS EXPORTED TO AUSTRALIA.

INVOICE VALUES AND BUYING COMMISSION FOR AUSTRALIAN CUSTOMS PURPOSES.

AN Order (No. 1169) issued by the Commonwealth Department of Trade and Customs on December 3rd last relative to the inclusion of "buying commission" in the value for duty of goods imported into the Australian Commonwealth has been published in abridged form by the Board of Trade (Commercial Department) in the *Board of Trade Journal* of February 10th, 1910, which is now re-published hereunder for the information of South African Exporters and others concerned:—

In all cases in which invoices tendered by importers are those made out by oversea buying agents, such agents should be regarded as the vendors of the goods, and the amount of any so-called "buying commission" included in the value for duty, unless the Collector of Customs is satisfied from the production of:

- The original manufacturer's invoices; or
- Other sufficient evidence that the values appearing in the body of the agent's invoice (i.e., exclusive of the charge described as "buying commission") represent the cash prices for home consumption in the country of export.

The Commonwealth Government further states that it is recognised as impracticable for the buying agent to forward the original makers' invoices in cases where he buys from the latter in large quantities, which are split up by him into shipments to several clients. There are also other cases in which for business reasons the buying agent is averse to disclosing the name of the manufacturer.

To meet such cases it has been decided that, as a general rule, the charge for buying will not be included in the value for duty, if the invoice from the buying agent bear a declaration made by him in the following or similar terms:—

"I declare that the values appearing on the body of this invoice (exclusive of the "buying commission" shown on such document) represent, at the date of the invoice, the fair market value of goods for home consumption in the United Kingdom (or as the case may be) and free on board at the port of export in such country."

[1910.]

Office of the Surveyor-General,
Cape Town, 14th January, 1910.

IN terms of Section II., Act No. 15 of 1887, as amended by Sections IV., V. and VI. of Act No. 40 of 1895, it is hereby notified that the following lots of Crown Land, situated in the Division of Namaqualand, will be offered for Sale, by Public Auction, in front of the Office of the Civil Commissioner, Namaqualand, at 10 o'clock a.m., on Friday, 20th May, 1910, subject to the conditions and stipulations in the above Act, and in the General Conditions of Sale set forth, and further to such Conditions as may be declared on the day of Sale.

Each Lot will be put up at the upset price fixed, and the highest bidder who shall have offered not less than such upset price shall be declared the purchaser, and every such purchaser shall have the option of paying either the whole or part of the purchase money on the day of sale: Provided:

- (i) That if no payment be made on the day of sale one-tenth of the purchase price shall be paid at six and one-tenth at twelve months from the day of sale.
- (ii) That if less than one-tenth of the purchase price be paid on the day of sale, the balance of such one-tenth shall be paid at the expiration of six months, and the remaining one-tenth at the expiration of twelve months from the day of sale.
- (iii) That if the amount paid on the day of sale be one-tenth or any sum between one-tenth and one-fifth of the purchase price, the balance of one-fifth of the purchase price shall be paid at the expiration of twelve months from the day of sale.
- (iv) In cases where the purchase-money is less than twenty-five pounds, the whole amount shall be paid in cash, or in three equal annual instalments from the day of sale.

Interest on the instalments above mentioned shall be paid at the rate of four per centum per annum; and the payments of the instalments, together with the interest thereon, shall be secured on the day of sale by two good and sufficient sureties to the satisfaction of the Civil Commissioner, which sureties will bind themselves in regard to such payments as sureties *in solidum* and co-principal debtors, renouncing the exceptions of excussion and division.

If the purchaser or his sureties fail, or are unable to make the necessary payments of purchase money as above within the stipulated time, it shall be competent for the Government to cancel the sale, and all payments already made in respect of such sale shall be forfeited to the Government.

The expenses of Survey, etc., on each Lot and of the Title Deed (viz., 12s. 3d.) shall be paid to the Civil Commissioner, or other duly authorised person in that behalf on the day of sale.

The purchaser shall be bound to pass a mortgage bond bearing interest at the rate of four per centum per annum in favour of the Government for four-fifths of the purchase price, unless he shall have paid on the day of sale more than one-fifth thereof, in which case the amount of the bond shall be for the balance of the purchase price, the purchaser having the right to pay off the bond or any portion thereof, not being less than fifty pounds at any time.

If the purchaser be desirous of holding the balance of the purchase money on mortgage as above, he will be required to pass the Bond within thirteen (13) calendar months from the day of sale, failing which, a fine of one shilling will be imposed for every day allowed to pass beyond it, up to eighteen months from the date of sale, after which, should such failure still continue, the balance of the purchase money, with interest thereon, and the amount of the fine, if any, so imposed, shall forthwith become due and payable, and shall be recoverable in any competent court of law without further notice, and if not paid within one month after the date of judgment, the sale shall become null and void, and payments already made in respect thereof shall be forfeited to the Government.

The Diagrams and Conditions of Sale may be seen at the Surveyor-General's Office, Cape Town, and at the Office of the Civil Commissioner, Namaqualand.

(b) A wall forming part of a building and standing, in any part of the length of such wall, to a greater extent than the projection of the footings on one side on grounds of different owners.

"External wall" means an outer wall of a building not being a party wall, even though adjoining to a wall of another building.

"Cross wall" means a wall used or built in order to be used for the separation of one part of any building from another part of the same building, such building being wholly in one occupation.

"Public building" shall mean and include theatres, opera houses, halls, rooms, exhibitions, churches, chapels, meeting houses and all buildings used for purposes of public resort or assembly; also hotels, boarding houses, lodging houses and similar establishments in which fifty or more persons, besides the servants and family of the occupier, may be accommodated, and schools, factories, hospitals and other asylums in which above fifty persons in number are gathered or employed or intended to be gathered or employed at one time.

"New building" shall include any public building, building of the warehouse class or domestic building which is erected after the promulgation of

these regulations, or any alteration to any such public building, building of the warehouse class, or domestic building involving the removal of the roof or the pulling down of any external wall or the construction of any new room in or appurtenant to such public building, building of the warehouse class or domestic building, or the conversion into a dwelling-house of any building not originally constructed for human habitation, or the conversion into more than one dwelling-house of a building originally constructed as one dwelling-house only, or the conversion of a domestic building into a public building or building of a warehouse class, or the conversion of a building of a warehouse class into a public building.

"Street" means any public thoroughfare.

"Engineer" shall mean the Municipal Engineer or any officer authorised by the Council to discharge the duties assigned to the "Engineer" under these regulations.

2. The following buildings shall be exempt from the operation of these regulations:—

(a) Any building erected and used or intended to be erected and used exclusively for the purpose of a plant-house, greenhouse or conservatory.

(b) Any building erected and used or intended to be erected and used exclusively for the purpose of an orchard-house, summer-house, poultry-house, coal-shed, garden tool house, potting shed, cycle or motor car shed or aviary, which shall not exceed in extent six hundred cubic feet, or which, if exceeding in extent six hundred cubic feet, or if used or intended to be used for keeping domestic animals shall be wholly detached and at a distance of ten feet at least from any other building or street.

(c) Any building which shall not exceed in height thirty feet, as measured from the footings of the walls, and shall not exceed in extent one hundred and twenty-five thousand cubic feet, and shall not be a public building, and shall not be constructed or adapted to be used either wholly or partly for human habitation, or as a place of habitual employment for any person in any manufacture, trade or business, and shall be distant at least twenty feet from the nearest street, and at least thirty feet from the nearest building.

With respect to the structure of Walls, Foundations, Roofs and Chimneys of New Buildings, for securing Stability and the Prevention of Fires and for Purposes of Health, and with respect to the structure of Floors, Hearths, and Staircases.

3. No new building shall be constructed upon any site which shall have been filled up with any material impregnated with faecal matter, or with any animal or vegetable matter, or upon which any such matter may have been deposited, unless and until such matter shall have been properly removed by excavation or otherwise from such site.

4. The subsoil of the site of every new building shall be effectually drained by means of suitable earthenware field pipes properly laid to a suitable outfall whenever the Engineer shall deem necessary.

5. The foundations of every new dwelling-house shall be carried up to a height of not less than two feet above the surrounding ground, and down to a depth sufficient to obtain proper foundation to the satisfaction of the Engineer.

6. The external walls of every new building shall be constructed of good burnt bricks, stone, or other hard and incombustible materials, properly bonded and solidly put together:

Provided always that any such external wall may be constructed as a hollow wall, if in accordance with the following rules:—

(1) The inner and outer parts of the wall shall be separated by a cavity which shall throughout be of a width not exceeding three inches.

(2) The inner and outer parts of the wall shall be securely tied together with suitable bonding ties of adequate strength, formed of galvanised iron, or iron tarred and sanded, or of glazed stoneware. Such ties shall be placed at distances apart not exceeding three feet horizontally and 18 inches vertically.

2. COLONIAL SECRETARY'S MINISTERIAL DIVISION.

- (3) The thickness of each part of the wall shall throughout be not less than $4\frac{1}{2}$ inches for the internal part and 9 inches for the external part.
- (4) The aggregate thickness of the two parts, excluding the width of the cavity, shall throughout be not less than the minimum thickness prescribed by the bye-law in that behalf for an external wall of the same height and length and belonging to the same class of building as to that to which the hollow wall belongs.
- (5) All woodwork which may be inserted in the wall so as to project into or extend across the intervening cavity, shall be effectually protected from any moisture that may enter the cavity.

7. Every cross wall of a new building shall be constructed of good burnt bricks, stone, or other hard and incombustible materials properly bonded and solidly put together.

8. No wall nor any part of a wall of a new building not being a part properly corbelled out, or a projection intended solely for the purpose of architectural ornament, shall overhang in any part, nor shall any such architectural ornament project more than thirty inches from the face of any wall.

9. Every wall of a new building which may be built at an angle with another wall shall be properly bonded therewith.

10. Every wall of a new building shall be constructed so as to rest upon proper footings of foundations, either of brick or stone, set in good lime or cement mortar or concrete.

If of brick, the projection at the widest part of the footings of every wall, on each side of such wall, shall be at least equal to one-half of the thickness of such wall at its base, unless an adjoining wall interferes, in which case the projection may be omitted where that wall adjoins.

The footings shall be diminished in regular off-sets, or in one off-set at the top of the footings, and the height from the bottom of the footings to the base of the wall shall be at least equal to two-thirds of the thickness of the wall at its base.

If of stone or concrete, the projection shall be at least four inches on each side of the lowest course of footings of such wall.

11. The footings or foundations of every wall of a new building shall rest on the solid ground, or upon a sufficient thickness of good concrete, or upon some solid and sufficient sub-structure, as a foundation.

12. Every wall of a new building shall have a proper damp course of asphalt, or slates laid in cement, or of other durable material impervious to moisture, beneath the level of the lowest timbers, and at a height of not less than six inches above the surface of the ground adjoining such wall.

13. For the purposes of the regulations with respect to the structure of walls of new buildings, the measurement of height of storeys and of height and length of walls shall be determined by the following rules:—

- (1) The height of storeys shall be measured as follows:

(a) The height of a topmost storey shall be measured from the level of the upper surface of the floor up to the level of the under side of the tie of the roof or other covering, or if there is no tie, then up to the level of half the vertical height of the rafters or other support of the roof.

(b) The height of every storey, other than a topmost storey, shall be measured from the level of the upper surface of the floor of the storey up to the level of the upper surface of the floor of the storey next above it.

- (2) The height of a wall shall be measured from the top of the footings or foundations to the highest part of the wall, or in the case of a gable, to half the height of the gable.

- (3) Walls shall be deemed to be divided into distinct lengths by return walls, the length of a wall shall be measured from the centre of one return wall to the centre of another, provided that the return walls are external walls, party walls or cross walls of the thickness prescribed by the regulations, and bonded into the walls so deemed to be divided.

14. Every external wall and every party wall of a new domestic building shall be constructed in accordance with the following rules, and in every case the thickness prescribed shall be the minimum thickness of which any such wall may be constructed, and the several rules shall apply only to walls built of good hard burnt bricks, not less than nine inches long, or of suitable stone, or other blocks of hard and incombustible substance, the beds or courses being horizontal and laid and jointed in good lime or cement mortar.

Provided that, if clay mortar be used, then in every case the thickness of the wall shall be at least $4\frac{1}{2}$ inches thicker than the thickness therefor hereinafter prescribed:—

I.	II.	III.
Height up to 25 feet.	Length up to 30 feet. From base to top of wall, 9 inches.	Length unlimited. Wall below topmost storey, $13\frac{1}{2}$ inches. Topmost storey, 9 inches. Remainder, 9 inches.

- (a) In using the above Table the height of the wall is to be reckoned on the first vertical column on the left hand of the Table, and the length of the wall on the corresponding horizontal column; the thickness of the wall in each storey is given in inches, and begins with the wall from the base upwards.

- (b) If any external or party wall measured from centre to centre is not more than twenty-five feet distant from any other external or party wall to which it is tied by means of any floor or floors other than the ground floor or the floor of any storey formed in the roof, the length of such wall is not to be taken into consideration, and the thickness of the wall will be found in the second vertical column in the above table.

- (c) If in any storey the thickness as prescribed for the walls of such storey in the above Table is less than one-sixteenth part of the height of such storey, the thickness of each external or party wall

throughout such storey shall be increased to one-sixteenth part of the height of the storey, and the thickness of such external and party wall below such storey shall be proportionately increased, but any such additional thickness may be confined to piers properly distributed, of which the collective widths amount to one-third part of the length of the wall.

15. Every external wall and every party wall of a new public building or a new building of the warehouse class shall be constructed in accordance with the following rules, and in every case the thickness prescribed shall be the minimum thickness of which any such wall may be constructed, and the several rules shall apply only to walls built of good hard burnt bricks not less than nine inches long, or of suitable stone, or other blocks of hard and incombustible substance, the beds or courses being horizontal and laid and jointed in good lime or cement mortar.

(a) The above Table is to be used in the same manner as the Table previously given for the walls of domestic buildings, and is subject to the same qualifications and conditions respecting walls not more than twenty-five feet distant from each other.

(b) The thickness of the walls of buildings of the warehouse class at the top and for sixteen feet below the top shall be thirteen and a half inches, and the intermediate parts of the wall between the base and such sixteen feet below the top shall be built solid throughout the space between straight lines drawn on each side of the wall and joining the thickness at the base to the thickness at sixteen feet below the top as above determined; nevertheless, in walls not exceeding thirty feet in height the walls of the topmost storey may be nine inches thick.

(c) If in any storey of a building of the warehouse class the thickness of the wall, as determined by the rules hereinafter given, is less than one-fourteenth part of the height of such storey, the thickness of the wall shall be increased to one-fourteenth part of the height of the storey, but any such additional thickness may be confined to piers properly distributed, of which the collective widths amount to one-fourth part of the length of the wall.

16. The thickness of a cross wall shall be two-thirds of the thickness hereinafter required for an external or party wall of the same dimensions and belonging to the same class of building, but never less than nine inches, and no wall subdividing any building shall be deemed to be a cross wall unless it is carried up to two-thirds of the height of the external or party wall, and unless the recesses and openings therein do not exceed one-half of the vertical surface of the wall in each storey; but if such cross wall supports a superincumbent external wall, the whole of such cross wall shall be of the thickness prescribed by the Regulations in that behalf for an external wall or a party wall of the same height and length and belonging to the same class of building as that to which such cross wall belongs.

17. Any wooden frame partition in a new building shall be properly covered with lime plaster on expanded metal, or metal, or other incombustible substances. Provided that where the risk of fire to the adjoining premises is not incurred by the erection of match lining or other similar partition walls, such walls may be erected

where consent thereto is expressly given in writing by the Engineer.

18. If in any new building the extent of any opening or openings in any storey or storeys shall exceed one-half the whole extent of the vertical face or elevation of the wall of the storey or storeys in which the opening is left, there shall be constructed:—

- Sufficient piers of brickwork or other sufficient supports of incombustible material so disposed as to carry the super-structure; and
- A sufficient pier or piers or other sufficient supports of that description at the corner or angle of any street on which the building abuts; or
- Such a pier or other support in each wall within three feet of the corner or angle of the street.

19. Every new public building, new building of the warehouse class, or new domestic building which may be intended to be used wholly or partly as a shop or as a place of habitual employment for any person in any manufacture, trade or business, shall be so constructed that such part of any external wall of such building as is within a distance of fifteen feet from any other building shall be carried up so as to form a parapet one foot at least above the highest part of any roof or gutter which adjoins such part of such external wall, and the thickness of the parapet so carried up shall be at least nine inches throughout.

The party wall of every new building shall be carried up at least nine inches in thickness.

- Above the roof, flat or gutter of the highest building adjoining thereto to such a height as will give, in the case of a public building, or of a building of the warehouse class, a distance of at least three feet, and in the case of any such domestic building, a distance of at least fifteen inches measured at right angles to the slope of the roof, or above the highest part of any flat or gutter, as the case may be;
- Above any turret, dormer, lantern light, or other erection of combustible materials fixed on the roof or flat of any building within four feet from the party wall, and so as to extend at least twelve inches higher and wider on each side than such erection;
- To a height of twelve inches at the least above such part of any roof as is opposite to and within four feet from the party wall.

2. COLONIAL SECRETARY'S MINISTERIAL DIVISION.

In every case where the eaves of the roof project beyond the face of the building every party wall of such building shall be properly corbelled out in brickwork or stonework, to the full extent of such projection, and be carried up above the projecting eaves, nine inches at least in thickness to such height as will give, in the case of a building of the warehouse class or of a public building, a distance of at least three feet, and in the case of any other building a distance of at least twelve inches measured at right angles to the slope of the roof.

20. Every wall of a new building shall be, when carried up above any roof, flat, or gutter so as to form a parapet, properly coped or otherwise protected, in order to prevent water from running down the sides of such parapet or soaking into any wall.

21. No opening shall be constructed or left in any party wall of a new building except when any building is intended to be in the same occupation; provided, however, that when such building shall cease to be in the same occupation any openings left in the party wall shall be stopped up with brick or stonework to the satisfaction of the Engineer.

22. No recess shall be made in any external wall or party wall of any new building:—

(a) Unless the back of such recess be at least nine inches thick, but in no case shall the back of such recess be within four and a half inches of the centre line of any party wall.

(b) Unless a sufficient arch be turned over every such recess.

(c) Unless in each storey the aggregate extent of recesses having backs of less thickness than is prescribed by these regulations for the wall in which such recesses are made does not exceed one-half of the extent of the vertical superficies of such wall.

(d) Unless the side of any such recess nearest to the inner face of any return external wall is distant at least thirteen and a half inches therefrom.

23. There shall not be made in any wall of a new building any chase which shall be wider than fourteen inches or more than four and a half inches deep from the face of such wall, or shall leave less than nine inches in thickness at the back or opposite side of such chase, or which shall be within thirteen and a half inches from any other chase, or within seven feet from any other chase on the same side of such wall, or within thirteen and a half inches from any return wall.

24. There shall not be placed in any party wall of a new building any bond timber, or any plate, block, brick or plug of wood.

25. No joist in any new building shall be at a greater distance from any other joist adjoining than eighteen inches as measured from centre to centre, and every joist shall be of width and thickness not less than as provided in the following table, viz.:—

For bearings not exceeding 6 feet...	4½ inches by 3 inches.
"	" 12 " 6 " 3 "
"	" 16 " 9 " 3 "
"	" 20 " 11 " 3 "

And every such joist of a ground floor shall rest upon brick or stone sleeper walls and wood wall plates.

26. Every bressumer in any new building shall be of the same breadth as the wall which is to rest upon it, and the end thereof shall have at least the total width of such bressumer for wall hold, and shall be laid on stone or hard wood templates supported by hard brick laid in cement mortar or other equally strong and substantial material as may be approved of by the Engineer.

27. Every pillar post in every new building shall be of approved stone, cast iron, iron or good bricks laid in cement or reinforced cement concrete and of sufficient strength to carry the superincumbent weight, and shall be securely fixed into a piece of hard stone or concrete with sufficient foundation.

28. Every new balcony, verandah, porch, portico and other similar erection shall be well and sufficiently tied to the building to which it belongs to the satisfaction of the Engineer.

29. In any new building every girder shall be borne by a sufficient template of stone, iron, terra cotta or vitrified stoneware of the full breadth of the girder.

30. Every bressumer in a new building shall have a bearing in the direction of its length of nine inches at least at each end, on a sufficient pier of brick or stone, or on a storey part of iron or other suitable material fixed on a solid foundation in addition to its bearing on any party wall.

Every bressumer shall also have such other storey posts, iron columns, stanchions, or piers of brick, or stone on a solid foundation sufficient to carry the superstructure.

31. In every new building every bressumer, supporting any wall, pier, floor, roof, or other part of such building shall be of sufficient strength and shall be properly constructed, placed and fixed to the satisfaction of the Engineer.

32. In a new building the end of any bressumer, beam, or joist shall not be placed in any party wall unless the end of such bressumer, beam, or joist be at least four and a half inches distant from the centre line of such party wall.

33. In every new building the open spaces between the joists in any wall shall be stopped with brickwork, concrete or other incombustible material at every floor.

34. Every chimney in a new building shall, except in such case as is hereinafter provided, be built on a solid foundation and with footings and foundations similar to the footings and foundations of the wall against which such chimney is built, and shall be properly bonded into such wall.

Provided, nevertheless, that any such chimney may be built on sufficient corbels of brick, stone, or other hard and incombustible materials, if the work so corbelled out does not project from the wall more than the thickness of the wall measured immediately below the corbel.

35. The inside of the flue of every new building shall be properly rendered or parged as such flue is carried up, unless the whole flue shall be lined with fireproof piping of stoneware at least one inch thick, and shall be built with brickwork or other incombustible material.

No flue shall have an internal area on plan of less than nine inches by nine inches.

Every flue shall be carried up throughout its length without communicating with any other flue or fireplace.

The back or outside of every flue, which shall not be constructed so as to form part of the outer face of an external wall, shall be properly rendered in every case where the brickwork, of which such back or outside may be constructed, is less than nine inches thick.

36. In every new building every flue which may be intended for use in connection with any furnace, steam boiler, or close-fire, constructed for any purpose of trade, business or manufacture, or which may be intended for use in connection with any cooking range or cooking apparatus of such building when occupied as an hotel, tavern, or eating-house, shall be surrounded with brickwork at least nine inches thick for a distance of ten feet at the least in height from the floor on which such furnace, steam boiler, close-fire, cooking range or cooking apparatus may be constructed or placed.

37. In every new building a sufficient arch of brick, or stone, or a sufficient bar of wrought iron shall be built over the opening of every chimney of such building to support the breast of such chimney; and if the breast projects more than four and a half inches from the face of the wall, and the jamb on either side is of less width than thirteen and a half inches, the abutments shall be tied in by a bar or bars of wrought iron of sufficient strength, eighteen inches longer than the opening, turned up and down at the ends, and built into the jambs on each side.

38. In every new building the jambs of every chimney shall be at least nine inches wide on each side of the opening of such chimney.

39. In every new building the breast of every chimney and the brickwork or stonework surrounding every smoke flue and every copper flue shall be at least four and a half inches in thickness.

The back of every other chimney opening shall be, from the hearth up to the height of twelve inches above such opening, at least nine inches thick.

The back of every chimney opening and the inside of every flue in a party wall shall be distant at least four and a half inches from the centre line of such wall.

41. In every new building the upper side of every flue when the course of such flue makes with the horizon an angle of less than forty-five degrees shall be at least nine inches in thickness.

2. COLONIAL SECRETARY'S MINISTERIAL DIVISION.

42. In every new building every arch, upon which any flue may be carried shall be constructed so that such arch shall be effectually supported by means of a bar or bars of wrought iron of adequate strength.

Every such bar shall be to the extent of four and a half inches securely built or pinned into the wall at each end thereof.

For every nine inches of the width of the soffit of such arch one, at the least, of such bars shall be provided as a means of support for such arch.

43. In every new building every chimney shaft or smoke flue shall be carried up in brickwork or stonework all round at least four and a half inches thick to a height of not less than three feet above the roof, flat, or gutter adjoining thereto, measured at the highest point in the line of junction with such roof, flat or gutter.

44. The brickwork or stonework of any chimney shaft of a new building, other than a chimney shaft of the furnace of any steam engine, brewery, distillery, or manufactory, shall not be built higher above the roof, flat, or gutter adjoining such chimney shaft, measured from the highest point in the line of junction with such roof or flat, or gutter, than a height equal to six times the least width of such chimney shaft at the level of such highest point, unless such chimney shaft shall be built with and bonded to another chimney shaft not in the same line with such first-mentioned chimney shaft, or shall be otherwise made secure.

45. No iron holdfast or other metal fastening shall be placed nearer than two inches to the inside of any flue or chimney opening in a new building.

46. There shall be placed and fixed in front of every chimney opening in a new building a proper hearth of stone, slate, bricks, tiles, concrete, or other incombustible substance, at least six inches longer at each end than the width of such opening, and projecting not less than eighteen inches distant from the chimney breast.

Such hearth shall be laid at the level of the floor of the room in which such chimney opening is situated, and shall be borne wholly upon stone or iron bearers, or upon a brick trimmer arch, or bedded wholly on brick, stone, concrete, or other incombustible substance, extending to a depth of five inches at the least beneath the upper surface of the hearth, provided that, in the lowest storey, the hearth may be bedded on the foundations.

47. In any new building there shall not be placed any timber or woodwork:—

- (a) In any wall or chimney breast of such building nearer than nine inches to the inside of any flue or chimney opening;
- (b) Under any chimney opening of such building within fifteen inches from the upper surface of the hearth thereof;

and no wooden plug shall be driven into any wall or chimney breast of such building nearer than six inches to the inside of any flue or chimney opening.

48. The face of the brickwork or stonework about any flue or chimney opening of any new building, where such face is at a distance of less than two inches from any timber or woodwork, and where the substance of such brickwork or stonework is less than nine inches thick, shall be properly rendered.

49. No chimney or flue of any new building shall be constructed so as to make or leave in such chimney or flue any opening for the insertion of any ventilating valve, or for any other purpose, unless such opening be at least nine inches distant from any timber or other combustible substance.

50. There shall not be fixed in any new building any pipe for the purpose of conveying smoke or other products of combustion, unless such pipe be so fixed at the distance of nine inches at the least from any combustible substance and shall be carried up to the height required for chimneys by these regulations.

51. Every chimney shaft for the furnace of a steam boiler, brewery, distillery, or manufactory shall be built upon a solid and level bed of good cement concrete, and shall be constructed of good bricks properly bonded and solidly put together:—

- (a) With good mortar compounded of good hydraulic lime and clean sharp sand in the proportion of not less than one part of lime to two parts of sand.
- (b) With good cement mixed with clean sharp sand in the proportion of not less than one part of cement to five parts of sand.

The base of the shaft shall be solid at the top of the footings, and the footings shall spread equally all round the base by regular offsets (three inches high and two

and a quarter inches wide) to a projection on all sides equal to the thickness of the wall at the base.

The width, measured externally, of a furnace chimney shaft at the base, or at that portion immediately above the footings, shall be as follows:—

- (1) If square on plan, at least one-ninth of the total height of the shaft.
- (2) If octagonal on plan, at least one-tenth of the total height of the shaft.
- (3) If circular on plan, at least one-eleventh of the total height of the shaft.

Every furnace chimney shaft shall have a batter of two and a half inches at least in every ten feet in height, or one in forty-eight.

The brickwork shall be at least nine inches in thickness at the top of the shaft and for not exceeding twenty feet below the top, and shall be increased at least four and a half inches in thickness for every twenty feet of additional height measured downward.

No portion of the walls of a furnace chimney shall be constructed of fire bricks, but every furnace chimney shaft for at least one-sixth of its height shall be provided with an independent lining of fire bricks, separated from the brickwork of the shaft by a cavity at least two inches wide, the cavity being covered at the top by corbelled brickwork. Such fire-brick lining shall not be reckoned when measuring the thickness of the walls of the shaft.

Every cap, cornice, pedestal, string course, or other variation from plain brickwork shall be in addition to the thickness of brickwork prescribed by the foregoing rules, and no cap or cornice shall project more than the thickness of the brickwork at the top of the shaft.

52. In the construction of a new building no combustible materials shall be used in such a manner as in the opinion of the Engineer shall entail the risk of fire.

53. The flat and roof of every new building, and every turret, dormer, lantern-light, skylight or other erection placed on such flat or roof shall be externally covered with slates, tiles, metal or other incombustible materials, except as regards any door, door frame, window or window frame of any such turret, dormer, lantern-light, skylight or other erection.

Every gutter, shoot or trough in connection with such roof shall be constructed of incombustible materials.

54. The roof or flat of every new building shall be so constructed that all water falling on such roof or flat shall be received in suitable gutters, shoots or troughs, and shall thence be discharged into a pipe or trunk provided in pursuance of the bye-law in that behalf.

55. Every person who shall erect a new building shall cause the rafters supporting the roof covering to be of dimensions not less than the following:—

When supporting corrugated iron, $4\frac{1}{2}$ x 3—4 ft. apart.

When supporting slates, $4\frac{1}{2}$ x 3—2 ft. 6 in. apart.

When supporting tiles, $4\frac{1}{2}$ x 3—2 ft. 6 in. apart.

Subject to the remaining timbers and construction of roof being approved of by the Engineer.

56. In any new building any room so constructed that it may be used for human habitation, shall be not less in any part thereof than five feet in height if such room is an attic, or a room in the roof of such building, it shall not be less in any part than five feet in height, and shall to the extent of two-thirds of the superficial area of the floor be of a height of not less than nine feet.

With respect to the Lighting and Ventilation of Buildings, the Sufficiency of Air Space, and with regard to the Improving of Streets.

57. There shall be provided in front of every new building an open space, which shall be free from any erection thereon above the level of the ground, except any portion, porch, step, stoep, verandah, or other like projection from such building, or any gate, fence, or wall not exceeding seven feet in height, and which, measured to the boundary of any lands or premises immediately opposite, or to the opposite side of any street on which such building may abut, shall, throughout the whole line of frontage of such building, extend to a distance of thirty feet at the least; such distance being measured in every case at right angles to the external face of any wall of such building which shall front or abut on such open space.

58. No new building shall be erected in such a way that any part thereof, exclusive of any portico, porch, step, stoep, verandah, or like projection from such building, shall project beyond the front main wall of the buildings on either side thereof: provided that nothing in this regulation shall be taken to require any such build

2. COLONIAL SECRETARY'S MINISTERIAL DIVISION.

ing to be set back more than fifteen feet from the boundary in front of such building of the property whereon such building is erected; and provided further that nothing in these regulations shall prevent the Council fixing a line of frontage in any street for shops in such street beyond such front main wall but not within the distance of thirty feet from the boundary of any lands or premises immediately opposite as in the preceding regulation No. 57 provided.

59. The Council may upon such terms as they shall think fit allow any building or other structure to be set forward in order to improve the line of street, or road in which such building or any building adjacent thereto is situate.

60. When any building or other structure, or any part of a building or other structure, which projects beyond the front thereof on either side, has been taken down for the purpose of being altered or rebuilt, the Council may require the same to be set backwards from, or forwards to the line of the street or road or the line of the adjoining buildings or other structures, in such manner as the Council shall direct, but subject to full compensation being made to the owner of such building or other structure for any damage suffered thereby.

61. Every new domestic building shall have in the rear of such building an open space exclusively belonging to such building, and of an aggregate extent of not less than two hundred square feet, and free from any erection thereon above the level of the ground, except a watercloset or earthcloset.

Such open space shall extend, laterally, throughout the entire width of such building, and the distance across such open space, from every part of such building to the boundary of any lands or premises immediately opposite or adjoining the site of such building shall be not less in any case than ten feet.

If the height of such building be fifteen feet such distance shall be fifteen feet at least.

If the height of such building be twenty-five feet, such distance shall be twenty feet at the least. If the height of such building be thirty-five feet or exceed thirty-five feet, such distance shall be twenty-five feet at the least.

Provided always that such open space shall not be less than one-fourth the area occupied by such building.

Provided further that in any case where sufficient space, not being less than a distance of ten feet across, along the entire length of either side of any such building, is provided, it shall be competent for the Council to sanction the provision of a less space at the rear of such building than is required by this regulation; provided that in no case shall the distance across such space at the rear of such building be less than five feet.

For the purposes of this regulation the height of such building shall be measured upwards from the level of the ground over which such open space shall extend to the level of half the vertical height of the roof, or to the top of the parapet, whichever may be higher.

62. No alteration in or addition to any building shall at any time be made which shall thereby diminish the extent of any space in front of or to the rear or side of such building below the extent required to be provided in respect of a new building by regulations 57, 58 and 61.

63. In every new building every habitable room shall have constructed one window at least, opening directly into the external air, and the total area of such window, or, if there be more than one, of the several windows, clear of the sash frames, shall be equal at the least to one-tenth of the floor area of such room.

Every such window shall be so constructed that one-half, at the least, may be opened, and so that the opening may extend in every case to the top of the window, and every such window shall be so placed as to admit as far as may be possible a sufficient amount of direct sunshine and as to allow of cross ventilation.

64. The space beneath the lowest floor of every dwelling-house shall be thoroughly ventilated by means of suitable and sufficient air-bricks or by some other effectual method.

65. In every new domestic building every habitable room which is without a fireplace and a flue properly constructed and properly connected with such fireplace, shall be provided with special and adequate means of ventilation by a sufficient aperture or air-shaft which shall provide an unobstructed sectional area of one hundred square inches at the least.

66. All doors, gates and bars put up after the coming into operation of these regulations, and which open upon any street, shall be hung or placed so as not to open

outwards, except when, in the case of public buildings, the Council allow such doors, gates or bars to be otherwise hung or placed. And if (except as aforesaid) any such door, gate or bar be hung or placed so as to open outwards on any street, the occupier or owner of such house, building, yard or land shall, within eight days after notice from the Council to that effect, cause the same to be altered so as not to open outwards. And in case he neglect so to do, the Council may make such alteration, and the expense of such alteration shall be paid by such occupier or owner. Provided that if any such door, gate, or bar was, before the coming into operation of these regulations, hung so as to open outwards upon any street, the Council may, at its own expense, alter the same, so that no part thereof when open shall project over any public way.

With regard to the Giving of Notice and the Depositing for the Council's approval of Plans and Sections by persons intending to build.

67. Every person who shall intend to erect any new building shall give notice in writing to the Council at their Office. Such person shall at the same time deliver to the Council at their Office for the purpose of enabling the Council to ascertain whether or not the Municipal Regulations will be complied with, sufficient plans, elevations and sections of every floor of such proposed new building; the plans shall be drawn to a scale of not less than one inch to eight feet, and shall show the height of the foundations above the level of each road which it is intended to face, the position, form and dimensions of the open spaces and the several parts of the building and of every door, window, chimney, watercloset, earthcloset, and all other appurtenances, together with the intended mode of drainage and means of water supply. Such person shall at the same time so deliver a block plan of such building, which shall be drawn to a scale of not less than one inch to every twenty feet, and shall show the position of the building and appurtenances of the properties adjoining, the width, line and level of the road in front, and of the road, if any, at the rear or side of such building and the line of frontage on any such road of the adjoining buildings. Such person shall at the same time so deliver a schedule or specification, describing the materials of which the proposed building or other structure is to be constructed and the purposes for which the building is intended to be used, and the intended mode of drainage, ventilation and water supply, and such other information as may be required by the Engineer. The plans, elevations, sections and schedule or specification herein mentioned shall severally bear the name and address of the person intending to defray the cost of the proposed work to which they relate, and shall be signed by him or his agent, and by the designer or architect. A duplicate original in ink on tracing cloth, which shall become the property of, and be retained by, the Council, shall accompany every plan, elevation and section; and a copy of every specification or schedule submitted for approval. All such plans shall have figured dimensions affixed, or a scale attached thereto, from which measurements can be made.

68. No person, whether owner, agent, builder or other person, shall proceed to erect any building without having first obtained the approval of the Council of the plans and schedule thereof in writing by the Engineer; provided, however, that the Council shall, within fourteen days after receiving the notice, plans, elevations, sections and specification or schedule in the preceding regulation mentioned, signify to the person giving the same, whether it approves or disapproves thereof, and, if it disapproves thereof, shall inform such person of the alterations therein which it requires to be adopted; and provided further that the approval of the Council shall be null and void unless the work so sanctioned shall be commenced within twelve months after the notification of such approval and the work be thereafter carried on with reasonable despatch.

69. No alteration in or deviation from any plan, elevation, section, or specification or schedule shall be made after the same has been deposited with and approved of by the Council, unless notice of such proposed alteration or deviation, together with plans, elevations, sections, and a specification or schedule thereof shall have first been deposited with and approved of by the Council in like manner and within the same time as is required in the case of original plans, sections, elevations and specifications or schedules.

40. When the proposed level of any new street shall have been approved by the Council, the Engineer shall specify the depth and inclination, form, size, materials and other particulars of the sewers and their appurtenances, according to which the works for the drainage of such street, and of the adjoining properties shall be carried out; and no person shall carry out any works for the drainage of such street and of the adjoining properties otherwise than in accordance with such specification.

If such person neglect or refuse to deliver or send any such notice, or to cause any such notice to be delivered or sent to the Engineer, and if the Engineer on inspecting any work in connection with such street or such other work as aforesaid, finds that such work is so far advanced that he cannot ascertain whether anything re-

quired by any Regulation relating to new streets has been done contrary to such Regulation, or whether anything required by such Regulation to be done has been omitted to be done, and if, within a reasonable time after such survey or inspection, such person shall, by notice in writing under the hand of the Engineer, delivered or sent by registered post to the residence or place of business of such person, be required within a reasonable time, which shall be specified in such notice, to cause so much of such work as prevents the Engineer from ascertaining whether anything has been done or omitted to be done as aforesaid, to be cut into or laid open to a sufficient extent to enable the Engineer to ascertain whether anything has been done or omitted to be done as aforesaid, such person shall, within the time specified in such notice, cause such work to be so cut into or laid open at his own cost.

Such person shall, within the time specified in such notice, comply with the several requirements thereof so far as such requirements relate to matters in respect of which the laying out or construction of such street, or the execution of such work may be in contravention of any such Regulation.

Such person, within a reasonable time after the completion of any work which may have been executed in accordance with any such requirement, shall deliver or send, or cause to be delivered or sent, to the Engineer at his office, notice in writing of the completion of such work, and shall at all reasonable times, within a period of three days after such notice shall have been so delivered or sent, afford the Engineer and his duly authorised assistants free access to such work for the purpose of inspection.

Any notice which may be given by the Engineer under this Regulation may be deemed to have been duly received by the person to whom such notice is addressed, if delivered or sent by registered post to the residence or place of business of such person.

LICENCE TO PROSPECT FOR WATER ON VACANT SURVEYED CROWN LANDS: DIVISION OF HAY.

IN terms of Section 6 of Act 42 of 1908, it is hereby notified, for general information, that certain pieces of Crown Land, hereunder described, situate in the Division of Hay, will up to and including the twenty-sixth day of April, 1910, be available for water prospecting purposes in manner and on the terms provided in the said Act No. 42 of 1908, and hereunder set forth:—

1. Every application for a Licence to prospect for water on the land referred to shall be made, in writing, to the Civil Commissioner, Hay, at Griquatown.

2. All applications received on or before the 26th April, 1910, shall be submitted for the consideration and advice of a Land Board to be appointed by the Governor for that purpose; and the Surveyor General, acting upon

such advice, shall, subject to the approval of the Minister, grant licences in respect of such lands to suitable and desirable persons from among the applicants whose applications shall be so received, provided that in no case shall the Board be bound to select any person whom it may deem to be undesirable.

3. Every applicant for a licence under the provisions of this Act shall make and append to his application a declaration to the following effect:

I [A.B.] (insert occupation), residing at..... in the District of....., do solemnly and sincerely declare that I am of the age of twenty-one years and upwards, that I make this present application for my own exclusive use and benefit, and not directly or indirectly for "the use or benefit of any other person whomsoever, that I am not the owner of any landed property (other than urban property) of the value of more than £100, that I have not made any arrangement or agreement to enable or permit any other person to acquire by purchase or otherwise, the land in respect of which this my application is made."

Signature of Applicant,

[A.B.]

Dated before me at.....this.....day of19.....

Justice of the Peace.

4. The prospecting licence shall be issued free of charge, and shall hold good for a period of one year, and the prospector shall be bound to commence operations within six months of the issue of the licence, and to carry on the same with all reasonable diligence, failing which such licence shall be forfeited, unless it shall be proved to the satisfaction of the Minister that bona fide efforts have been made, and that the failure in finding water has not been due to any fault of the licensee; in which event the prospecting licence may, upon application of the licensee, be renewed for a period not exceeding one year at the discretion of the Minister, provided, however, that the licence may be terminated by the prospector at any time upon giving written notice to the Resident Magistrate of the District of his intention to do so.

5. All licences issued for prospecting for water upon surveyed Crown Lands shall be deemed to extend to the area defined by the beacons of such Crown Land, but no licence shall confer upon any prospector the right to prospect for water upon any surveyed Crown Lands upon which any well, fountain, or natural oozing already exists, or within three miles of any well, fountain or natural oozing, situated upon any unsurveyed Crown Lands except upon special sanction of the Minister after sufficient proof having been given him that the water of such existing well, fountain or natural oozing is insufficient or unfit for use.

6. The holder of a prospecting licence shall be bound to report the discovery of water by him to the Resident Magistrate of the Division, within three months of the date of such discovery, failing which, the licence shall be subject to forfeiture, and he shall lose all claim in respect of the water found by him; unless it shall be proved to the satisfaction of the Minister that the omission or delay in reporting such discovery was caused by circumstances beyond his control; or that the water discovered by him is insufficient or unfit for ordinary use.

7. Prior to any licence being granted to any applicant to prospect for water, he shall be informed of the terms and conditions upon which the land will be allotted to him under the provisions of Act No. 40 of 1895.

8. So soon as any prospector shall have reported the discovery of water in sufficient quantity and fit for use, he shall forthwith elect whether he will accept allotment of the area upon which he has found water, and in the event of his accepting such allotment the provisions of Act No. 40 of 1895 shall apply, and if he do not accept such allotment, he shall either surrender all claim to the land, or the Minister may, upon sufficient cause shown, extend his licence for any period not exceeding the full two years hereinbefore provided, or a period of six months from the date of making such report.

10. No person who shall prospect for and discover water on Crown Land without having previously obtained a licence shall be entitled to any claim under this Act, and no holder of a licence for prospecting for

water under this Act, shall have any claim on the Government for any expenditure incurred, in the event of his not having been successful in his search for water, or surrendering his claim to the land to which his licence refers.

11. It shall be lawful for the Governor from time to time to issue regulations in the *Gazette* to give effect to the provisions contained in Sections 6 to 14 of this Act.

All inquiries should be addressed to the Civil Commissioner, Hay, or to the Surveyor-General, Cape Town.

NOEL JANISCH,

Under Colonial Secretary.

MATATIELE PUBLIC CEMETERY.

RULES AND REGULATIONS.

(Framed under Section 10 of Act No. 3 of 1883.)

1. The Cemetery or such portion thereof as shall be in use, shall be properly enclosed with sufficient walls, rails or fences, and such roads and paths shall be made and maintained in such Cemetery as may be necessary. Every portion of the Cemetery, together with all walls, rails or fences, and all roads and paths, shall be kept by the Superintendent in good order and repair.

2. A strip of land of not less than 50 feet wide along the whole extent of the boundary of the Cemetery shall be reserved, and no burial within such strip shall be permitted to take place.

3. Upon any religious denomination making written application therefor, the Town Council may set apart a portion of the Cemetery for the exclusive use, for burial purposes, of the members of such religious denomination, and thereafter such portion shall remain so set apart so long as the Cemetery shall be in use. Every such portion shall be, in respect of religious rites and ceremonies, under the sole control of the denomination to whom its use is assigned, but nothing herein contained shall be taken to give to such denomination any other right in respect of such portion, and such portion shall be and remain vested in the Town Council and subject to their general control and to these regulations.

4. The Town Council shall reserve land in some portion of the Cemetery as well as in every portion set aside as in the last regulation mentioned, for subdivision into plots, and may sell to any person the exclusive right of burial in one or more of such plots, subject to the payment of the fees hereinafter prescribed, and to the regulations for the time being in force. The size of each plot shall be 9 feet by 4 feet.

5. The remainder of any portion of the Cemetery intended for burial purposes shall be sub-divided into grave spaces, and burial therein shall be subject to the payment of the fees hereinafter prescribed, and to the regulations for the time being in force. Such grave spaces shall measure, for the burial of the body of a person over 12 years of age, not less than 9 feet long by 4 feet wide, and for the burial of the body of a person under 12 years of age, not less than 6 feet by 3 feet, or 4 feet by 4 feet 6 inches.

6. The ownership of all land, whether of plots or grave spaces, and whether or not interments shall have taken place therein, shall remain vested in the Town Council.

7. Whenever the exclusive rights of burial in any plot shall be sold to any person, a Certificate of Sale in the Form "A" hereto annexed shall be issued to such person. No such right shall be sold or transferred by the purchaser to any person other than a member of his family, nor shall the interment therein take place of the body of any person other than a member of the family of the owner, save with the consent in writing of the Town Council first obtained.

8. No grave shall be opened in any reserved plot unless the written consent of the purchaser of the exclusive right of burial therein shall have been produced to the Superintendent at the time of the giving of the notice of interment.

9. Every grave in a plot or grave space shall be dug as near as may be in the middle of such plot or grave space, and no coffin shall be buried in any plot or grave space so that the sides of such coffin are nearer than 2 feet to any other coffin previously buried in any adjoining plot or grave space.

10. All graves shall be at least 6 feet deep so that the top of the coffin shall not be less than 4 feet from the ordinary surface of the ground, except in the case of a grave intended for the body of a child under 12 years of age, which shall be at least 5 feet deep, so that the top of the coffin shall not be less than 3 feet 6 inches from the ordinary surface of the ground.

11. Whenever two interments are contemplated in the same grave, the first opening shall not be less than 9 feet deep in order that there shall not be less than 18 inches of earth between the first and the second coffin. Graves intended for more than two interments must be of a depth in proportion. The provisions of the preceding regulation as regards depth of coffins below the surface of the ground shall in every case apply.

No removal of any coffin for the purpose of deepening or enlarging any grave will be allowed, and no coffin shall be uncovered during any subsequent interment in the same grave.

12. No vault shall be constructed in any part of the Cemetery. No brick grave shall be constructed without the consent in writing of the Town Council first obtained, and no burial in any such brick grave shall take place except on the condition that immediately after interment such grave shall be filled up with earth, and the provisions of regulation 10 regarding the depth of coffins below the surface of the ground shall in every such case apply.

13. No coffin or body shall be exhumed without the consent of the Government and of the Town Council being first obtained, except when an exhumation for judicial purposes is ordered by the Attorney-General or the Resident Magistrate of the District.

14. Notice of any intended interment shall be given to the Superintendent in writing whenever practicable not less than 12 hours previous to the time fixed for such interment and such notice shall be as in Form "B" hereto annexed. No notice for the burial of a person dying in an urban area shall be accepted for any interment unless the said notice be accompanied by a Burial Order duly issued by a Deputy or Assistant Deputy Registrar of Births and Deaths, or by a Magistrate in accordance with the provisions of Act 7 of 1894. Every such notice shall be accompanied by the specified fee. No grave shall be opened, and no interment shall take place without the consent of the Superintendent being first obtained.

15. No rail, fence, chain or other like erection shall be placed in any part of the Cemetery, and no tree-planting shall be permitted therein without the consent of the Trustees in writing first obtained.

16. Sufficient drawings and specifications or a description of every tombstone, monument, rail, fence, chain or other structure proposed to be erected shall be submitted to the Town Council, by whom they may be retained until the completion of the work, and no deviation shall be made in any such work save with the consent in writing of the Trustee.

Tenderers for supplies of British South African production or manufacture, from articles entirely grown in British South Africa, should, in order to obtain the benefits of preference as indicated in the preceding paragraph, be careful to insert in their tender the words "South African" opposite each of the items concerned. In cases where the supplies tendered for are manufactured in the British South African Colonies from imported ingredients the items concerned should be marked "part South African." In the event of the terms of differentiation not being shewn it will be assumed that the tender is for an imported article.

- (c) To any owner of land or erven in the Douglas Settlement, if by such allotment his holding within the Settlement would exceed ten morgen of irrigable ground in extent.

The Minister shall issue to the first applicant, who shall have fulfilled the specified conditions for any land under this Act, or in the event of two or more applications for the same land, to the applicant determined by a lot, a licence to hold the land applied for on the following terms and conditions:

"(a) The licence shall be for five years, reckoned from the next first July, or first January following the date of licence, and shall include the period between the date of licence and such day.

"(b) The yearly payment in respect of such licence shall be equal to one-twentieth of the price fixed for the land so held, together with one-twentieth of the survey and other expenses on such land, and shall be paid in advance.

"(c) The deposit paid at the time of application shall be in discharge of the amount due on the next first day of January or July, as the case may be.

6. MINISTERIAL DIVISION OF SECRETARY FOR AGRICULTURE.

- “(d) The person to whom such licence is issued shall within six months of the issue of his licence personally occupy the land allotted to him and shall continue so to occupy such land except as hereinafter provided, for the term of five years, or until he shall obtain a title to such land.
- “16. No land held under these terms and conditions shall be transferable during the currency of the licence mentioned in the clause next preceding.
- “17. In the event of any failure during the currency of the licence to perform the condition of occupation the Minister may declare the licence absolutely forfeited and the land in respect of which the licence is issued shall revert to Government: Provided that if it is proved to the satisfaction of the Minister that the failure to occupy was caused by drought he may excuse such failure, but such excuse shall not be given for a period of more than twelve months unless such drought continued for a longer period.
- “18. At the expiration of the five years for which any licence is granted, and if the Minister is satisfied that the conditions therein contained have been duly fulfilled he shall cause to be issued to the licensee a grant of the land held and occupied by him on quitrent tenure, subject to the conditions stated in section five of Act No. 15 of 1887, subject to the payment of fifteen annual instalments each of the amount of one-twentieth of the value of the land together with the value of the survey and other expenses which shall be a first charge on such land, and shall be secured by mortgage in favour of the Government: Provided that in the event of it being proved to the satisfaction of the Minister who shall require certificates to that effect that the licensee has after two years of occupation made permanent improvements on the land occupied by him under such licence equal at least to the value of the said land, the Minister may cause to be issued to him a title to the land held or occupied by him, subject to the payment of so many annual instalments of one-twentieth of the value of the land, together with the value of the survey and other expenses as shall, together with the annual payments made by him in respect of the licence to the said ground, make up the whole value, and such annual payments due shall be secured by mortgage.
- “19. If any instalment shall not be paid within three months of the date on which it is due and payable, an additional sum equal to one-fourth part thereof, by way of penalty, shall be added thereto, and shall together with the instalment overdue, be recoverable at the suit of the Government in any competent Court.

GENERAL CONDITIONS.

1. All applications should be sent in on or before Wednesday, the 15th June, 1910. Applications may, however, be submitted after the said date for such erven as shall not have been allotted, and these applications will in due course be considered by the Board.
2. For the purposes of this Notice one allotment may contain such number of erven as will give a total area of, approximately, 10 morgen of irrigable land, and the subdivision of erven into suitable allotments will be carried out by the Minister who on the recommendation of the Land Board, will also decide upon the extent of land to be allotted to each applicant.
3. Applicants who are desirous of leaving the selection of erven, on their behalf, in the hands of the Board, may omit in their applications to specify the particular erf or erven applied for, but may, in lieu thereof merely state the number of erven or the total number of morgen they desire to obtain.
4. The plan and form of Licence Deed may be seen at the Office of the Civil Commissioner at Douglas, and at the Surveyor-General's Office, Cape Town.

(e) Includes £2,750 under the Cigarette Tax Act, No. 12 of 1909.

(f) The increase is due to the earlier transfer to Revenue of amounts from Loans Accounts and to increased temporary investments in London.

(g) The increase is due to Receipts from the sale of Sleepers, amounting to £6,552 in February, 1910, whilst in February, 1909, receipts from this source only amounted to £1,425.

(h) The decrease is due to the transfer of the Table Bay, Port Elizabeth and East London Harbours to Government, no further payments being made to Revenue in re-imbursement of the Public Debt charges previously recouped by the Harbour Boards. The receipts include £7,035 derived from Temporary Deductions from Salaries.

(i) The increase is due to the fact that assessments for the current year were made later than in 1908-09.

(j) The receipts are made up as follows:—Traffic Receipts, £276,559; Temporary Deductions from Salaries, £5,414; Refreshment Branch Receipts, £6,826, and Forest Plantation Revenue, £9. The net increase of £34,925 is made up as follows:—Traffic Receipts, £34,207; Refreshment Branch Receipts, £488; Temporary Deductions from Salaries, £225; and Forest Plantation Receipts, £5. The above figures allow for approximate amounts due to "Other Administrations" and include £50,518 paid by "Foreign Administrations" on account of December, 1909, and January, 1910, traffic, but are exclusive of about £31,000 outstanding on account of February, 1910, traffic.

(k) Harbour Receipts have for the first time been carried to Revenue this year.

(l) Includes £27,212 derived from the sale of Colonial Wood Sleepers.

(m) " £27,325 " " "

(n) " £55,665 " " "

(o) " £55,392 " " "

and Auditor-General, Cape Town, before noon on the 2nd

but the names and addresses of competitors must be enclosed
in a sealed envelope accompanying the drawings and bearing
the *nom de plume* adopted on the outside.

Any designs not accepted will be returned, free of
charge, to the Competitor, if so desired.

All drawings must be prepared upon plain white paper in
black outline, elaborate shading to be avoided. Drawings
may however be tinted to indicate the metal or metals
proposed to be used. Designs for small fittings to be drawn
to a scale of 3 inches to one foot, those for larger or special
fittings may be drawn to any convenient scale, sufficient to
clearly indicate the detail.

To the Sheriff of the Colony of the Cape of Good Hope, or his lawful Deputy.

WHEREAS upon the Petition of the **DIVISIONAL COUNCIL OF THE CAPE** it appears to us

1. That **LOUIS FREDERICK ZIETSMAN**, formerly of Kokstad, Cape Colony, is now justly and truly indebted to the Divisional Council of the Cape in the sum of £62 3s. 10d., being for Road and School Board Rates upon certain property situated in the Cape District, the property of the said **ZIETSMAN**, with interest and costs, made up as follows:—

2. That on the 10th day of August, 1909, your Petitioners obtained provisional judgment against the said **ZIETSMAN** in the Resident Magistrate's Court, Cape Town, for the sum of £13 9s. 0d. with costs.

3. That on the 2nd day of November, 1909, your Petitioners issued out of the Resident Magistrate's Court, Cape Town, a Writ of Execution (certified copy of which is annexed to the said Petition marked A) against the goods and chattels of the said Defendant for the said sum of £13 9s. 0d. with costs.

4. That the Messenger of the said Resident Magistrate's Court, Cape Town, was duly entrusted with the execution of the said Writ, and the said Defendant was afterwards required by the said Messenger to satisfy the said judgment, or to point out sufficient disposable property to satisfy the same.

5. That it appears from the return made by the said Messenger to the said Writ (certified copy of which return is also annexed to the said Petition marked B) that no goods or chattels of the Defendant were found after diligent search, or pointed out to the Messenger, whereof the exigency of this Writ could be made or any part thereof.

6. That the said Writ was endorsed for execution in the District of Mount Currie, and the Messenger of the Resident Magistrate's Court, Kokstad, was duly entrusted with the execution of the said Writ, and the said Defendant was afterwards required by the said Messenger to satisfy the said judgment, or to point out sufficient disposable property to satisfy the same.

7. That it appears from the return made by the said Messenger to the said Writ (certified copy of which return is also annexed to the said Petition marked C) that no goods or chattels of the Defendant were found after diligent search, or pointed out to the Messenger, whereof the exigency of this Writ could be made or any part thereof, but the Defendant pointed out that he had immovable property, namely, Erf No. 69, in the Village of Cedarville, District Matatiele, and exhibited the transfer.

8. That thereafter the said **ZIETSMAN**, who was then residing at Kokstad, came to Cape Town, and called upon and made a proposal to your Petitioners that certain Erf No. 69, situate in the Village of Cedarville, should be sold through Petitioners' Attorney for the purpose of liquidating his said indebtedness.

9. That thereafter in the month of December last the said **ZIETSMAN** interviewed your Petitioners' Attorney and conferred with him for the purpose of effecting the sale of the said property, and on the 13th day of December, 1909, executed a power of attorney giving effect to this undertaking, and in consideration of the indulgence granted him by your Petitioners agreed to pay all costs and charges incidental to the sale of the said property and effecting the settlement of his indebtedness, which costs to date amount, approximately, to £4 12s. 0d.

10. That to enable your Petitioners' Attorney to effect a sale of the said property he required to have possession of the title deeds thereof and made request to the said **ZIETSMAN** therefor.

11. That on the 12th day of January, 1910, Petitioners' Attorney wrote to the said **ZIETSMAN** requiring delivery of the said title deeds, and in response thereto the said **ZIETSMAN** called upon Petitioners' Attorney on the 15th day of January and stated that these were expected in the course of a few days, and that he had instructed Mr. Attorney Bosman to hand them over to Petitioners' Attorney.

12. That the said **ZIETSMAN** did not then inform Petitioners' Attorney that he intended leaving the Colony.

13. That during the course of the week following Petitioners' Attorney interviewed the said Bosman with a view to obtaining the said title deeds, and he informed your Petitioners' Attorney that they had not yet come to hand.

14. That in consequence of the delays on the part of the said **ZIETSMAN** Petitioners thereafter issued a summons in the Honourable the Supreme Court to have the said judgment of the Resident Magistrate's Court of Cape Town made a judgment of this Honourable Court, which summons was returnable on the 22nd day of March, 1910.

15. That so late as the 25th day of February, 1910, Petitioners' Attorney again called on Mr. Attorney Bosman in connection with this matter, who informed him that the title deeds had not come to hand, that his instructions in the matter were so indefinite that he was not personally prepared to take any steps to procure same, that the said **ZIETSMAN** was believed to be in Johannesburg, Transvaal, and that he could not say when he was likely to return.

16. That your Petitioners' Attorney made search in the Deeds Registry, Cape Town, and being unable to ascertain the date when the said **ZIETSMAN** obtained transfer of the said Erf No. 69, situated in the Village of Cedarville, telegraphed on the 26th February, 1910, to the Messenger of the Resident Magistrate's Court, Kokstad, as follows:—"Cape Divisional Council *vs.* Zietsman return to writ dated 2nd December last wire name transferor and date of transfer," to which reply was received: "Unable give name transferor writing Zietsman Germiston," as per annexure to the said Petition marked D. Thereupon Petitioners' Attorney telegraphed **ZIETSMAN** on the 28th, "Divisional Council intends sequestrating your Estate unless capital and costs £60 odd be settled 10 a.m. 1st March."

17. That on the 1st March Petitioners' Attorney received the following telegram from the said **ZIETSMAN**: "Association pay rates have you sold Erf writing arranging," as per annexure to the said Petition marked E. Thereupon Petitioners' Attorney called upon the South African Association who stated that they had no funds wherewith to discharge rates for the said **ZIETSMAN**.

18. That subsequently certain correspondence passed between the Petitioners and Defendant's Attorney, Mr. D. F. Bosman, from which it appeared that the Erf possessed by the said **ZIETSMAN** was not Erf No. 69 but Erf No. 67.

19. And it appearing to your Petitioners from information furnished by Defendant's Attorney that the Erf in question was of small value, quite insufficient to cover the total amount of the said **ZIETSMAN**'s indebtedness, your Petitioners required of the said **ZIETSMAN** a guarantee for the whole amount of his said indebtedness, failing which judgment would be taken against him in the Supreme Court on the 22nd day of March, 1910.

20. That no such guarantee was forthcoming, and it appearing to this Honourable Court that the Defendant had due notice of the proceedings, your Petitioners accordingly obtained provisional sentence in the Supreme Court on the 22nd day of March, 1910, the taxed costs of your Petitioners in and about the aforesaid proceedings amounting to £14 18s. 3d., the total amount still due and unpaid by the said **ZIETSMAN** being the aforesaid sum of £62 3s. 10d.

21. That in consequence of the failure of the said Defendant to satisfy the said Magistrate's Court judgment, as appears from the said return, he has committed an act of insolvency.

Whereupon the said Petitioner prayed that the Estate of the said **ZIETSMAN** might be sequestrated for the benefit of the Creditors thereof.

And whereas it further appears to us of record that the Honourable Sir John Henry de Villiers, P.C., K.C.M.G., Chief Justice of the Colony of the Cape of Good Hope, did, by an order under his hand bearing date the 26th day of March, 1910, place the Estate of the said ZIETSMAN under Provisional Sequestration in the hands of the Master of the Supreme Court until the same should be thereafter adjudged to be finally sequestrated.

Now, therefore, we command you that you summon the said ZIETSMAN that he appear before Our Judges of Our Supreme Court of Our said Colony, at Cape Town, on the 4th day of May, 1910, at 10.30 o'clock in the forenoon, to shew cause, if any, why his Estate should not, by sentence of the said Supreme Court, be adjudged to be finally sequestrated for the benefit of the Creditors; and serve on the said ZIETSMAN a copy of this summons, and return you this summons immediately after the service thereof with whatsoever you have done thereupon.

Witness:—The Right Honourable Sir John Henry de Villiers, P.C., K.C.M.G., Our Chief Justice of Our said Colony, at Cape Town, the 29th day of March, 1910, in the Tenth Year of Our Reign.

Landmeter-Generaals Kantoor.
Kaapstad, 14 Januari, 1910.

OVEREENKOMSTIG artikel II., Wet No. 15 van 1887, zooals geamendeerd door artikels IV., V., en VI., van Wet No. 40 van 1895, wordt hiermede ter algemeene informatie bekend gemaakt dat de volgende Perceelen Kroonland, gelegen in de Afdeeling Namaqualand, bij publieke veiling te koop aangeboden zullen worden voor het kantoor van den Civielen Commisaris, Namaqualand, om 10 uur v.m., op Vrijdag, 20 Mei 1910, onderhevig aan de voorwaarden en bepalingen in bovengemelde wet en de algemeene koopcondities uiteengezet, en verder aan zulke voorwaarden als op den verkoopdag mogen genoemd worden.

Ieder Lot zal te koop geboden worden tegen den vast gezetten inzetprijs, en de hoogste bieder, die niet minder dan dien inzetprijs zal geboden hebben, zal de koper verklaard worden, en zoodanige koper zal de keus hebben of het geheel of een deel van de koopsom op den koopdag te betalen: Met dien verstande:

- (i) Dat, als geene betaling geschiedt op den koopdag een-tiende van den koopprijs betaald worden zal op zes maanden en een-tiende op twaalf maanden, gerekend van den verkoopdag.
- (ii) Dat, als minder dan een-tiende van den koopsom op den koopdag betaald wordt, het overige van zulk een-tiende betaald worden zal na verloop van zes maanden, en het andere een-tiende na verloop van twaalf maanden, gerekend van den verkoopdag.
- (iii) Dat, als het bedrag betaald op den verkoopdag het een-tiende zijn zal of eenige som tusschen een-tiende en een-vijfde deel van de koopsom, het overige van een-vijfde van de koopsom betaald worden zal na verloop van twaalf maanden, gerekend van den koopdag.
- (iv) In geval de koopsom minder dan vijf-en-twintig ponden zal zijn, zal het geheele bedrag kontant of in drie gelijke jaarlijksche paaiementen betaald worden.

Interest op de bovengenoemde sommen zal betaald worden gerekend tegen vier per cent. per jaar; en de betaling der paaiementen, met de interest daarop, zal op den koopdag door twee naar het oordeel van den Civielen Commisaris goede, voldoende borgen verzekerd worden, welke borgen in betrekking tot de betaling zich als borgen in *solidum* en mede principale schuldenaars verbinden, afstand doende van de excepties van excussie en divisie.

Als de koper of diens borgen feilen, of niet in staat zijn de noodige betalingen van de koopsom als bovengenoemd binnen de gestelden tijd te doen, zal de Regeering het recht hebben den koop nietig te verklaren, en alle betalingen reeds gedaan ten opzichte van dien koop, zullen aan de Regeering vervallen.

De uitgaven van opmeting op elk perceel en van den Grondbrief, nam., 12s. 3d., zullen aan den Civielen Commisaris of andere ten dien opzichte wettelijke geautoriseerden persoon, op den koopdag betaald worden.

De koper is verplicht een verband te passeeren, gevende interest tegen vier per cent. per jaar, ten gunste van het Gouvernement voor vier-vijfde van den koopsom, tenzij hij op den koopdag meer dan een-vijfde daarvan betaald hebben zal, in welk geval het bedrag van het verband voor de balans van den koopsom zijn zal, hebbende de koper het recht het verband of eenig deel daarvan, zijnde niet minder dan vijftig ponden in eens, af te betalen.

Mocht de koper de balans van de koopsom op verband willen houden, als bovenvermeld, zal hij het verband moeten passeren binnen dertien (13) maanden van den

koopdag, in gebreke waarvan een boete van een shilling opgelegd worden zal voor iederen dag, die daarboven voorbijgegaan is tot op achttien maanden van den datum der verkoop; na welken tijd, mocht er nog geen verband gepasseerd zijn, de balans van de koopsom, met interest daarop, en het bedrag van de boete, aldus opgelegd, zoo er eenige is, terstond vervallen zal en betaald zal moeten worden en in ieder bevoegd gerechtshof zonder verdere kennisgeving opgevorderd zal worden; en indien niet binnen een maand na datum van vonnis betaald, zal de koop van nul en geener waarde worden, en reeds gedane betalingen zullen aan de Regeering vervallen.

De Kaarten en Conditie van Verkoop kunnen gezien worden ten kantore van den Landmeter-Generaal Kaapstad, en ten kantore van den Resident Magistraat van Namaqualand.

3. In geval applicaties worden ontvangen na 20 April 1910, zal de Minister de landen voor welk alzoo aanzoek gedaan is alloteeren volgens de prioriteit van aanzoek tenzij dat er twee of meer aanvragen gedaan worden te gelijker tijd voor het zelfde land, dan zal het recht van prioriteit bepaald worden door loten.

zoek voegen ten volgende effekte:—

Ik [A.B.] (voeg in occupatie), wonende te in het Distrikt van, verklaar hiermede plechtiglijk en oprechtelijk dat ik een en twintig jaren oud ben en boven, dat ik deze tegenwoordige aanzoek doe voor geheel mijn eigen gebruik en voorrecht, en niet direkt of indirekt voor het gebruik of voorrecht van eenig ander persoon hoegenaamd, dat ik niet de eigenaar ben van eenig land (ander dan stads eigendom), van de

waarde van meer dan £100, dat ik geen schikking of overeenkomst gemaakt heb om eenig ander persoon te doen verkrijgen door koop of anderszins, het land in verband met welke deze mijne aanzoek gemaakt is."

12. Indien eenig paaiment niet betaald zal wezen binnen drie maanden van den datum op welk het schuldig en betaalbaar is, zal een additioneele som gelijkstaande aan een vierde deel daarvan bijgeteld worden als een boete, en zal, tezamen met het onbetaalde paaiment, inbaar wezen door gerechtelijke vervolging van het Gouvernement in eenig bevoegd Gerechtshof.

DIVISION OF MALMESBURY.

DIVISIONAL COUNCIL BYE-ELECTION.

WITH reference to my Notice of the 22nd February last, Notice is hereby given that JAKOBUS ABRAHAM SMUTS has been duly elected as a Councillor for the above Divisional Council for District No. 3.

C. J. SWEENEY.

Civil Commissioner.

Office of the Civil Commissioner,
Malmesbury, 2nd April, 1910.

2. COLONIAL SECRETARY'S MINISTERIAL DIVISION.

COLONIAL ORDNANCE DEPARTMENT.

TENDERS FOR SUPPLIES TO COLONIAL ORDNANCE DEPARTMENT, 1910-1911.

TENDERS for the Supply of the Articles specified in the subjoined list, during the year 1st July, 1910, to 30th June, 1911, will be received until 12 o'clock noon on Saturday, April 30th, 1910, by the Civil Commissioner, King William's Town.

2. The articles must be delivered, free of charge, in such quantities as may be required from time to time, at the Colonial Ordnance Stores, King William's Town.

3. Prices must be quoted in the precise terms of this Notice, and must be understood to include all containing packages.

4. Each Tender must be supported by the signatures of two persons willing to act as Sureties for the due execution of the Contract, in the event of the offer being accepted either wholly or in part.

It is to be understood that the articles are to be of the best description.

5. The lowest or any Tender will not necessarily be accepted, and the Government reserves the right of accepting any portion of a Tender without the whole.

6. Each article must be delivered upon the written requisition of the Chief Ordnance Officer or other authorised officer.

7. Colonial producers and manufacturers will, in connection with the consideration of their tenders, be given a preference of 10 per cent. on supplies produced or manufactured entirely from British South African grown articles, and 5 per cent. on supplies manufactured in British South Africa from imported ingredients or partially so.

8. Upon the acceptance of any Tender, wholly or in part, the person tendering and the sureties will be required to enter into a contract with the Chief Ordnance Officer, King William's Town, the form of which may at any time be inspected at the Ordnance Stores, and with which the Tenderer will be presumed to have made himself fully acquainted at the time of making his Tender.

9. To ensure consideration persons tendering are requested to insert the articles in their Tenders in the order given.

10. Tenders for supplies of British South African production or manufacture, from articles entirely grown in British South Africa, should in order to obtain the benefits of preference as indicated in para. 7, be careful to insert in their Tender the words "South African" opposite each of the items concerned. In cases where the supplies tendered for are manufactured in the British South African Colonies from imported ingredients the items concerned should be marked "part South African." In the event of the terms of differentiation not being shown it will be assumed that the Tender is for an imported article.
